

THE CANON

A TERMÉSZET TÖRVÉNYEINEK IGAZSÁGA -THE TRUTH OF THE LAWS OF NATURE

CHARTER OF THE UNIVERSAL HOLY SPIRIT LIFE ORDER OF THE HOLY LIFE FOR HUNGARIANS AND ALL PEOPLES OF THE WORLD

We, the Most Holy Heavenly ILARA, the Living Incarnation of the Universal Holy Spirit, the Master of All Manifested and Unmanifested Spaces, Forces, Worlds and Beings, Mother of the Great Ideas of Gods, the Source of Holy Life and the Glory of the World, the Only Rightful Holder of the Tiara of the Eternal Memory of the Universal Holy Spirit, by the Sacred Majesty's Right of this World Crown, by the Will of the Universal Holy Spirit, for the interest and benefit of the Universe and this living planet called Tati and all her living beings, in the present Charter we decide, judge, revelate, and teach for the Holy Glory and Protection of niversal Life in every presently existing spaces and every spaces that will exist in the forthcoming infinite times.

We have come into this world to bring ORDER, SIMPLICITY, PEACE, and to separate the light from the darkness, the heaven from the earth, the light from the heavy, and to curb the abundant Fire.

FOREWORD

This earthly world is in an extraordinary, pre-crisis breaking point in all respects with unpredictable consequences for LIFE, Human beings, societies, living beings, the entire biosphere, and the part of the Universe that includes Tati. Mankind, both collectively and individually, has committed an infinite number of sins against the Universal Holy Spirit, in the name of scientific curiosity and God — wherever they may be called — and these sins may no longer remain unnamed and uncondemned.

The age of outdated methods, belief systems, vulgarity, parasitism, and cheap forgiveness is over, and Mankind must face itself as individuals as well as communities. Mankind must also put an end to its petty urges and give up their destructive activities against Life if they want to continue to live on this planet.

The time has come for Mankind to draw lessons from the mistakes of past ages and generations and move to a higher level of consciousness, to change, to correct all that is possible for Holy Life, for Nature, for the physical and mental well-being and exaltation of future times and generations.

For thousands of years, dastardly parasites have been repeating the same mistakes and, with their centralized, authoritarian social models based on continuous struggle, are hindering the unfolding of real values, survivable technological development, and the spiritual and mental uplift of mankind as a whole. The difficulties of the world are based primarily on moral deficiencies of spiritual and mental

origin, so there are no political or economic solutions to these troubles, as these are the nests of the foulness. There is no effective change without spiritual-mental-moral ascension.

There is a divine time when chaff must separate from wheat, and energies that are artificially mixed but incompatible due to individual or group interests must separate! New clean structures must be created and rooted in order for the current civilization to eliminate the self-destructive mechanisms of its ancestors, predecessors.

With the conscious and well-intentioned attitude of Mankind, the observance of our Sacred Laws, a Harmonious Order and a livable, righteous world can be created. Mankind may move once and for all time to a righteous social order based on Peace and the principles of quality. At the same time, during the transition period, there will still be a definite need for centralized leadership, but these leaders are selected on the basis of their human quality. They must comply with the MAAT principles of life and serve their people, Mankind and Nature at every moment.

In order to reach spiritual-mental-moral development, peoples must recall the real values of old times and must rebuild them into their everyday life replacing the present degraded way of life. Failure of preparation would lead to the slavery caused by technologies that are far beyond the level of consciousness of present Mankind. And, over time, these technologies would destroy the whole of Mankind and the biosphere alike. After a period of two or three generations, the technological evolution of the artificial intelligence can reach a point that would mean the destruction of the present terrestrial world in those circumstances.

The Life-Supporting Mother Nature of the Universal Holy Spirit provides Mankind with a life-saving solution so that Mankind may correct its mistakes, may discontinue being a law unto itself, and may start a new, true, advanced-in-every-particle life that is based on sacred principles in accordance with the unchangeable Order of the Universe. To reach this goal We now hand over the Order of the MAAT, Her principles of life, Her advice, so that Mankind may return to the Divine Nature, and may develop freely in wisdom and spirit, shaking off all the false spiritual, mental, and physical shackles that bind them. Mankind must have the opportunity to grow up and save itself as well as the life on from the ambitions of certain individuals and companies of ignorance, half-knowledge and, above all, desire for power. This power is built on irrational ideological foundations, threaten living beings and the entire terrestrial biosphere with destructive technologies not studied in their ecological, biological and social effects, and by artificial intelligence.

The order of the MAAT is true in all space and time and is independent from that peoples of the world how many approach, theory have developed over the thousands of years to explain the scientific workings of God and the Natural World surrounding them.

THE DIVINE TIME has come to establish the ORDER!

But for this it is inevitable to call sins and sinners in their names, to criticize them, to condemn them, and to repeal all the laws and inferior or false ideas that have been subverting the Divine Order so far. By distorting the Order of the MAAT, sinners have gained advantages over others and sown the seeds of falsehoods for thousands of years, and now they feel it is time to reap. But now it will not be a harvest as they hope, but liquidation! Sins are brought to light, sinners are settled, because when sin abounds uncontrollably, the Universal Holy Spirit / Goddess / Our Almighty Lady always restores the upset balance.

One of the most important Order of the MAAT is Balance and restoration is in progress. **Therefore, rejoice and be cleansed, be renewed, and THIS EARTH WILL BE TRUE!** Those who deny and distort the persistent Order of the Universal Holy Spirit will be lost, but those nations and people who will settle their lives according to the order of the MAAT will find Peace, Happiness and Eternal Life.

DEFINITIONS

THE UNIVERSAL HOLY SPIRIT / GODDESS / OUR ALMIGHTY LADY / ALLNESS / CREATOR is the variously

named unified superintelligence, which is at the same time the Space – Time – Information set, which is the source of the Spirit, the Soul, and Material and in itself, according to its own order, exists, manifests or does not manifest.

OUR ALMIGHTY LADY (NaghBauDukAssunu = The Great Builder and Dismantler Master = Wholeness)

Our Almighty Lady is the Universal Holy Spirit; Queen of Wholeness including the unmanifested and manifested worlds. She manifests in the perceptible world through the Misses of the Seven.

Nagh – Almighty, the inexpressible , celestial BauDuk – Allness

Assunu – Master, majesty

Master – the possessor of power with non-gender attribute.

MAGURA (Ma-Igi-Ara / name of Goddess) – Our Almighty Lady and Her Holy Circles – stone circles, Natural Churches of the ancient religion.

MA – the Time (present).

'GU – (IGI, IGE, IGU, GUR, KUR, CIRCLE) – the Information.

'RA – (ARA) – the Space from whose power-energy everything is nourished.

GOD / MOTHER NATURE GODDESS/ MOTHER NATURE / NATURE the Universal Holy Spirit / Goddess / Our Almighty LADY' diverse, manifold manifestation in Space and in all spaces. It is a self-renewing entity that pours and organizes life, shapes matter and forces, and is based on the order of the MAAT regarding the connection of the unmanifested and manifested.

MAAT (MA-Ara-Turu) is the Eternal Law of the Universal Holy Spirit, that is, the Order of the Unmanifested and Manifested Wholeness.

THE FLOWER OF LIFE (MOTHER NATURE) is the Holy Life, formed from the Seven Manifested Elements of the Nine Principles, in harmonious accordance, which rests on the principle of truth in creation into one another, equally. In a broader sense, it is the accordance of the MAAT, the manifested Life - including the transmission of Life – and the spiritual phenomenons (cultivars). The path of Divine Creation, the symbol of Peace and harmony.

SACRAL in a broader sense: the fullness of the manifested worlds of the Universal Holy Spirit / Goddess / Our Almighty Lady. In a more precise explanation: everything that manifests itself according to the order of the MAAT. In a human interpretation: a person with a pure soul who lives an entirely clear life and acts and takes effects in accordance with the order of the MAAT.

THE MAJESTY'S RIGHT OF THE UNIVERSAL HOLY SPIRIT is the divine supreme-reality, primacy, sovereignty. It is the sovereignty of Our Almighty Lady to maintain the order of the MAAT in all existing worlds and every world that will come into existence in the forthcoming infinite times.

ARA is, above all, the primary CREATIVE FORCE – the SPACE that provides the energy necessary for all existence. The Lady of Heaven, the Governor of the Celestial Worlds, and the location of all ideas of the Universal Holy Spirit.

SEVEN ARA-s are the Seven Ancient Nucleuses of the manifested world, the Seven Women of Heaven, the Seven Ancient Mother, the Seven Souls of the Universe. It is identical with the Seven Manifested Elements, which in their purest form represent the Order of the Universal Holy Spirit, i.e., the MAAT. (Also called devas, aions, ergs, etc.).

TATI is the planet Earth, the planet of the Beautiful.

TRUE is every existence or action or incidence that is in Oneness and Harmony with the Order of the MAAT and does not involve even a drop of sin.

A TRUE MAN is a credible, honourable person with constructive determination. A TRUE MAN's thoughts, feelings, words, and actions are in harmony. Her/his all thoughts and deeds serve Life, that means, the truth of the MAAT.

THE COUNCIL OF THE RIGHTEOUS' is a Society of Wises with a minimum of 8 and a maximum of 21 members, whose members are over 49 years of age and whose gender composition is in proportion to the golden ratio, with a majority of Women. The head of the Council may be a Sacred Noble Woman. The Council Of The Righteous' is the supreme decision-making body that has the power to make decisions

over the highest-ranking individuals and teams, as well as the Sacred Women.

NOBLE is a mighty MAN (either female or male) who knows and implements the right proportions and directions in all her/his actions, avoiding exaggerations. Her/his life and actions are characterized by the most of good principles.

DASTARDLY / humanoid is a person who is moved by harmful desires and motivations. His thoughts, words, and deeds are contradictory, false, self-serving, misleading, destructive, and Anti-Life.

HUMAN is every good and constructive human being who respects and nourishes Life, is attracted to high idols, loves peace, is helpful, loves and maintains harmony.

HUMANOID is any human-like soulless dastardly being who thinks he is a winner at the cost of downplaying, shortening, humiliating, and destroying others. He imagines himself to be real over others, to bully, to sniff, to parasitize, to take pleasure in the suffering and destruction of other beings. He is a sworn enemy against PEOPLE, NOBLE PEOPLE, SACRED WOMEN, and his weakness, his lack of his own abilities, is often offset by sophisticated violence, deception, and the circumvention of various people against each other. The humanoid woman who is able to assert themselves among them is especially life-threatening and insurmountable in intrigue. Being a humanoid requires a high degree of organization, good appearance and excellent speaking skills, which is why they are masters of it. They seek to subdue the full range of opinion-forming tools so that they can convey their own patient pattern as a role model to the receptive part of societies.

IGNOBLE is any false, selfish, petty, degrading thought, intention, and deed that serves purposes contrary to the order of the MAAT and causes harm, pain, suffering, and degeneration to other living beings and to Nature.

ENTITY unmanifested forces and intangible spiritual phenomena as well as material nature manifestations.

A **WOMAN** is a female human being who nurtures the Flower of Life and is able to take courageous sacrifices and uplifting subordination for others.

A **MAN** is a male who is able to take independent responsibility, make courageous sacrifices for others, and uplifting subordination, faithfully supporting Life, the Woman, and the family. (Man in the sense of Mankind or Humanity means both and equally woman and man.)

SACRED WOMAN (also known as People's Mother) is the Noble TRUE WOMAN who steadfastly follows the path of the MAAT, over whom no humanoids, no people, no men and no women have influence or power. She is an independent, autonomous woman who is free from any subordination.

A Sacred Woman with Her life and deeds, serves those entrusted to Her, the common good, Her people and Mankind. She is accountable only to the Universal Holy Spirit / Goddess / Our Almighty Lady, and in human terms to the COUNCIL OF THE RIGHTEOUS'.

A **SACRED MAN** is a NOBLE and TRUE MAN who respects and faithfully follows the path of the MAAT, serving in his life and deeds with an uplifting devotion to his elected exemplar Woman. By assisting in the activities of SACRED WOMEN, he serves as practical leader, responsibly and faithfully for the benefit of their People, Nation and Mankind. Without the guidance or approval of SACRED WOMAN, he must not independently carry out activities that affect the life and prosperity of societies.

CRITICISMS

1. Mankind has deviated from the true path, denied and falsified the real essence of the Universal Holy Spirit / Goddess / Our Almighty Lady, thus committing unforgivable sins, against Her will, continually, repeatedly and more and more seriously. The essence of sin is the denial, twisting, distortion, deliberate cover-up, ignorance of the MAAT Order. Mankind has become infected with the spiritual-mental virus as a result of its separation from the MAAT, that is, the poisoned thought idols. All wrongdoing, ignorance and sin start from here.

2. Driven by a selfish desire for power, knowledge / religion faithful to the ancient MAAT was twisted, expropriated, shaped into their own image, and used for their ignoble purposes by dastard males. In the past thousand years, large religious organizations and wealthy individuals have been determined the quality of the human world and have falsified the ancient inexhaustible values and replaced them with unilaterally human, male-image idols called deities. Over time, the male-chauvinistic idol of thought gained more and more dominion, as a result of which Women's Privileges and real ancient history were abolished. This resulted the humiliation and exposure of Women and thus Mankind became increasingly vile and ignoble.
3. Sinners are the "spiritual leaders" of all ages who, in ignorance or selfish will, sow the germs of false doctrines and then raised wild seedlings and contaminated the common consciousness of Mankind with poisoned contents to this day.
4. Due to the false worldview and distorted attitude toward Life the masses of humans have lost their superior Human nature and have been diminished to humanoids vegetating at the lower instincts. In the absence of knowledge and adaptation to the Order of MAAT, their spirit has been depraved into vile. Deifying themselves, selfishness, vanity, parasitism, deception, lying, deception, theft, looting, murder, destruction, including self-destruction has become their dominant practice.
5. The vile, sick-minded humanoids have strived to high professions, positions, and economic domination in order to be able to freely shape and manipulate the healthy Natural processes without hindrance. Zealously gratifying their mortal parasitic desires and keeping the masses in contention, grief and ignorance, they caused harm, pain, suffering, and anguish to Nature and other people.
6. The vile ones withhold the real values, trivialize them, make them guilty, exalt disbelieving values in every forum, relativize the truth, and put falsehoods on a pedestal. By disseminating false doctrines and sophisticated methods, the True are encouraged to serve, to self-sacrifice, to self-give-up and to self-destruction. They use every way of media, arts, religion, science – to cleverly and salinely sell their selfish, looting and parasitic intentions, falsehoods to the multitude.
7. Hypocrites, vile, immoral pollute Nature, plunder, stir up wars and strife, scatter spiritual and physical poisons throughout the world. They subjugate Life to their ignoble interests. For forcing societies, individual people to be addicted and obsolete they have been producing ideologies by religions, law, dogmas, idols of thought, economic ideologies, scientific deceptions, isms. Due to their unbridled thirst for power and desire for power, they destroy Nature and all their actions are ultimately against Life / God.
8. Although the masses of people know that they are lying to them, they deceive them, they see that things are going in the wrong direction, they feel that nothing is wrong, yet they are slavish about the addictive situation. With this cowardly, compromising behavior, they bring vile power-takers to life, sabotage their own lives and happy futures, and risk the future of the planet. By these deeds they deny, insult the God living in themselves, and transgress against their will to support the Holy Life.
With all this, they evoke a miserable fate, a hopeless future to themselves.
9. The masses of people sinfully do not want to learn or confront the truth, they do not demand sobriety, and they give way to blinding, entertaining laziness and degradation. Choosing the easier way, they bow to the wicked, put their vigilance to sleep, rather than calling its real name and take action against sinners. Instead of living up to their God-given rights, they tolerate, listen, and they all say, "Thus, what can I do?"
10. Weak and indecisive people who seem right and good are often prisoners of stupid, self-destructive, demagogic ideas and false moral principles. They feel guilty and vile when their healthy, sober self-defense instincts are resurrected. Losing their common sense and healthy instincts for life, following tinsel ideologies, they sinfully push the chariot of looting parasites, thus denying the real Law and intentions of God living in them. From the perspective of Life, such people are ineffective and worthless, so God does not protect them as they would expect, so they will leave sooner.

11. Representatives of science sell themselves for cheap money and unscrupulously to economic participants, to industry, trade, and intellectual adventurers. Consequently, these unprincipled scientists deservedly die earlier than average, and their lives are plagued by countless difficulties. Science -at a given level of development- has exceeded the limits that scientists can safely control with their current mental and spiritual abilities. Almost all natural or high technology, innovation, and philosophical or economic sciences have become harmful, anti-Life, and ultimately ungodly.
12. Knowledge is the common property of Mankind, and societies finance the development of science and the related infrastructure in order to increase the quality of life and the spiritual and spiritual standard of Mankind and the world through the scientific results. It is a capital crime of science and scientists is that individual people and their groups expropriate the body of knowledge created by the efforts of communities and they use it for their selfish private purposes. At the same time, they do not take into account the decision-making rights of man, national communities, the whole of Mankind, and the self-identity of Nature.
13. Industry and commerce have succumbed to banks, and politics is clearly the slut of the financial world. Politics has long been not about public life, it is not about the public good for which it has authorisation. The institution called democracy and universal suffrage in its current form is only an make-believe and offers the greatest potential for abuse. It serves specifically harmful, ignoble private interests. They circumvent and twist the Divine Legitimacy they have been given to serve the public good of the peoples, thereby mocking the right of the people's will from God. There is not even one democratic government on Earth today that clearly and truly benefits its electorate! Instead, they serve multinational economic, monetary, religious or other ideologies, dictatorial authoritarian aspirations.
14. People who have gained great wealth through falsehoods and looting or otherwise become unrestrained, they have acquired rights and means to which no society in the world and no one has ever empowered them. They believe they can buy anything for money, they can achieve anything through deception and violence. They have the opportunity for everything, but in the absence of Divine Legitimation, they are legally doomed to failure.
15. People have to live according to the Order of MAAT so that they thrive by developing healthily. Instead, they live according to the idols of power and the idols constructed by the financial world, so they languish. As long as people deify money and are able to do anything for it, money will be the lord, that is, those who exercise power over money. As long as people gain credence to beautifully packaged lies and they do not recognize humanoids and they accept simple and clear truths, they are unlikely to have a chance against the well-organized deceptive parasite rabble.
16. The majority of mankind is guilty by their credulity and indulgence, and the minority imagines themselves to be God in their rapture of power. Apart from a narrow minority, mankind became a prisoner and a victim of its own deification due to its own ignorance or faulty knowledge.
17. Women are guilty because they no longer nurture the Flower of Life and have abandoned, thrown away their Sacred Womanhood. They pulled apart and thought only of their own survival, they surrendered to the male violence and broke themselves, moreover they consider subordination to be Natural. In doing so, they betrayed the Holy Life, the mission that God had placed upon them. In the absence of the soul-guarding LILI-s, and SACRED WOMEN, the Harmony has disintegrated, brutal energies have gained domination, and the males became unbridled, and they took control. Its consequence is tragic for the mental-spiritual-physical condition of all Mankind and for Nature.
18. Guilty are the males, who could not grow up to the MAN level, and, by substituting force for their weakness and ignorance, they crushed the women under themselves, made them their servants, and denied, altered, concealed the ancient knowledge and faith. The expert SACRED WOMEN and THE NOBLE MEN were murdered, ridiculed, disgraced. Calling the female gender inferior, everything was taken away from them, and they used them to satisfy their petty inferior desires. By their dreads, they denied the true essence of God, they planted hypocritical dogmas in

place of true sacred life and knowledge, and elevated this pharisee practice to legally-bound throughout the planet. The consequence is the defiance, ignorance, violence, and destructive tendency of Mankind.

ANNUNCIATIONS

I. WITHDRAWAL OF THE FORCE AND POWER OF GODS

Mankind has deviated from the true path of the Universal Holy Spirit over the past thousand years. Certain groupings formed innumerable so-called divine ideas endowed with human desires and qualities, and treated them as entities with power. On their behalf, they kneaded, falsified, skewed laws, canons, scriptures, and other house rules of uncertain content and established religions and church offices. For this reason, from today, WE WITHDRAW ALL POWER AND STRENGTH OVER ALL DEITIES, PROPHETS, MESSIAHS, groups, persons or from an ecclesiastical or secular spiritual entity, on earth, water, air, space and in all languages, at all times, in all spaces. Therefore, from the day of the proclamation of this Charter, all Deities that ever existed, and all constructive, supporting, or damaging forces — angels, fairies, ain, cherubim, sefiras, devas, demons, and Satan – as well as all not listed imaginations, projections, and existence endowed with Divine or Supernatural powers loses its strength and power in all spaces, at all times. In the same way, the teachings of all the Prophets or Teachers who have ever lived lose their effect, validity and force.

II. WITHDRAWAL OF RIGHTS

From the day of the proclamation of this Charter, by the Majesty's Right of the Universal Holy Spirit the HOLY LAW/ORDER OF UNIVERSAL LIFE has been revealed. According to this, all writings, words, and ideas that have been created by men and circumvent or are against the REAL ORDER OF Universal Holy Spirit / Goddess / Our Almighty Lady in any language or for any purpose, cease their validity. Under the terms of the HOLY LAW/ORDER OF UNIVERSAL LIFE, from the moment of the proclamation of this Charter, all previous religious, philosophical, spiritual formations, customary law, constitution, written law, and ideas deemed legitimate by all religious or secular canons of law, society or groups of all living entities and all institutions built on them, will lose their effect, validity and force on earth, water, air, cosmic spaces and all spaces in space-time, in all fields of information, at all times and in all languages.

III. ELIMINATION OF PRAYERS

From the day of the proclamation of our Charter, all prayers and supplications to the Gods, the Prophets, the Redeemers, which have hitherto existed in the collective consciousness of Mankind or a significant part of Mankind, lose their power and effect. Instead, we order people to give thanks for the generous graces of MOTHER NATURE GODDESS several times a day — but at least in the morning and evening —!

IV. ABOLITION OF LEGISLATIVE RIGHTS

We suspend or abolish the legislative or canonical right of all Crown Chiefs, nations, organizations, groupings and systems who have had canonical or legislative power so far, until they present themselves before us and present the new rules of their nations, peoples and masses based on harmony of people and which are in accordance with the ORDER OF THE UNIVERSAL HOLY SPIRIT, being independent of all human mortality and serving exclusively the HOLY ORDER OF THE UNIVERSAL LIFE.

V. AUTHORIZATION OF PEOPLE

From the day of the proclamation of our Charter, the laws in force until now will be replaced by the Universal Canon of the Holy Spirit Life, which will eradicate the cult of death, violence and looting on Earth and serve as a basis for the new social treaties of the peoples. We call on the Natural or National Folk Groups of people to exercise their rights deriving from the Universal Holy Spirit / Goddess / Our Almighty Lady and to renew their social contracts!

Create new Constitutions, and we give our blessing to all initiatives that are created with the content being in harmony with the MAAT Order described in this Charter! The world works properly when Sacred Constitutions regulate the daily life of human societies in such a way as to bring harmony between the

divine and human principles of existence.

VI. JUDGMENT

Any secularized or integrated government, legislature, religious organization, or nation in the world that refuses to function in unity with the ORDER OF THE UNIVERSAL HOLY SPIRIT should be treated as a despicable pariah. Peoples, nations that are unwilling to furnish their lives according to the Holy Order of Universal Life, do not deserve the grace of the Universal Holy Spirit and a peaceful balanced Life.

Soulless humanoids, because of their inhumanity, cannot receive the bliss of a blessed Life, and regardless of scale, their opinions do not matter. The soulless peoples, groups, and individuals of humanoids cannot make decisions on the lives and destinies of peoples, groups, or individuals of PEOPLE!

VII. THE ENNOBLEMENT OF MANKIND

The existence of mankind in itself is an evidence of the existence of the Universal Holy Spirit / Goddess / Our Almighty Lady, because man is a consequence of the MAAT, so man must not deny the power above her/him who created her/him, and man must not deviate from Her Order without punishment.

Yet man violated it countless times, and each time she/he paid the price through fall, tears, blood, suffering, sacrifices, and mental and spiritual depravity.

By denying the true nature of God and as a result of turning away from Her, Human has lost the supremacy, so in the next coming time it is the duty and personal responsibility of each member of Mankind to continually improve her/himself beyond her/his present quality and gradually following the way of ennoblement return to her/his Internal Goddess Nature.

VIII. FOR THE ORDER AND PEACE OF THE WORLD

We have come into this earthly world that by walking through the torments of the earthly path, by learning sin and injustice, to separate incongruous energies by our power, and to create ORDER, SIMPLICITY, PEACE in the place of chaos created by the fallibility of men.

We settle accounts with all Anti-life Manifestations that destroy human existence and Nature and cause harm, pain, suffering, or loss to Nature, Living Beings, and Humans at any time or space. According to our proclamation, all ideals, ideas, philosophies and theories of existence, which are aimed to alter and monopolize GOD, Her holy manifestation and the real Nature of LIFE, or are aimed to distort the Order of the MAAT, or which unreasonably stigmatizes women, men or group organizations as superior or inferior, or which does not guarantee the independent rights of the Elements, the Natural Environment and the Animals, ARE UNFAIR, ILLEGAL, INVALID, NOTHING, THEREFORE THEY ARE AUTHORIZED CRIMINAL, HARMFUL!

IX. VALIDITY AND AUTHORIZATION

The Gods, Saviors, Prophets have lost their rights, their power, their authority, and they can never return to any Space or Time, they can never exist!

At the same time, People are regaining their right and responsibility to possess back their own spirit and soul. From now on, no one can expect childish redemption from the outside, the Messiah, because with the power returned from the Gods, everyone must elevate themselves to higher and higher levels!

Mankind's childhood is over, the age of irresponsibility is over, and now, in the possession of power, one must take responsibility for oneself or others, depending on one's level of development!

Individuals and humanity, both individually and together, must consciously maintain a very high level of common consciousness in order for inevitable technological advancement not to result in slavery but in a high order of humanity so that, leaving its lowly urges, to become worthy to enter the Universe. Following the order of MAAT, be able to produce good effects continuously in accordance with God's purpose.

X. VALIDITY

Our revelations and the MAAT Order apply to all entities, organizations, groupings and all inhabitants of this planet from the date of promulgation. Independently from whether they have been informed of it, they acknowledge it, they believe in it, they protest against it – the MAAT Order is in force and is valid.

Sinners can be brought to justice, convictions can be enforced, misappropriated property can be confiscated by the MAAT-based International or National Councils of Truths and their executive bodies of a wide range of peoples and nations.

Mankind has been given a unique opportunity to build its spiritual-mental-physical world from the new beginning so that be in harmony with the MAAT, i.e. Mother Nature Goddess, and to prepare itself and its descendants for advancing to a higher plane of existence through the achievements of technology.

IT HAS BEEN DECLARED – IT'S NOW AND FOREVER!

COMMANDMENTS

1. Support and celebrate Life! - so that Life can love you.
2. Be grateful for all that has been given to you! - so that your soul will not be indignant.
3. Learn from the past, look to the future, but live in the present. - because only the moment world is eternal.
4. Honor your descendants, ascenders, circles of friends, other peoples - to live in peace.
5. Be faithful to your true words, your oaths, your faith - because infidelity devours insidiously.
6. Respect all living things and the Elements. - because everything is connected to everything.
7. Behave morally towards Yourself, People and Nature! - because that's the right way.
8. Learn and improve yourself! - because the path of the MAAT requires this.
9. Save on Natural Resources! - to live in peace with Allness.
10. Reverently thank Mother Nature for Her generosity - because you get everything from Her.

PROHIBITIONS

1. Don't kill, steal, flog, and don't want another's property enviously!
2. Don't lie, cheat or simulate!
3. Don't be haughty, selfish, don't chase nor deplete anyone!
4. Don't haggle, don't trade with money, don't give interest!
5. Don't waste, don't lavish!
6. Do not create tension, don't be angry!
7. Don't be curious, don't gossip!
8. Don't be sluggish for good and don't be lazy!
9. Don't let your conscience be silenced!
10. Do not be lenient with evils, harmfuls, troublemakers.

DECISIONS

1. Never since the world is world, no living being, nor any human being has ever been given a legitimate authority to override or alter the MAAT Order, nor to replace it with false laws, therefore any intention or act is sinful and reprehensible that places the selfish human / humanoid ideas, concepts, thoughts, and presumptions in front of the everlasting Laws/Order of God's Created World. The perpetrators of

such acts should be punished with a constant sense of lack, suffering and undergoing of public contempt.

2. Any person, group of persons or organization that declares itself to be superior to others, selected or chosen by God and creates theories through which it can dominate, parasitize, intervene in the course of Natural development through technology and the media should be named, be ashamed, and be obliged to account, confess and apologize in front of public! May their punishment be proportionate to the sort and extent of the crimes they committed to the peoples!
3. Every crime has a creator, so the inventor, distributor, practicer, perpetrator of any crime must be called personally in his name, even afterwards!
No one can hide behind an organization, no one can refer to a command or instruction. The era of the possibility of escaping from individual responsibility is over!
Let sins be punished according to their measure and sort!
4. Whoever gives an instruction to a man, or a humanoid, which opposes the order of the MAAT, and pursues others into a crisis of conscience, – even by deception, – commits a capital crime and she/he should expiate according to the type of crime!
5. The creation, possession and application of massacre, genocide, crimes against humanity, human experimentation, cloning, chimeras, hybrids, technohybrids, humanoid synthetic beings and the punishability of military, economic, financial and information technology sins against Nature and flagrant spiritual crimes are not-time-limited and unforgivable capital crimes.
6. The creation, manufacture, distribution of thermonuclear, ionizing, radiation, chemical, biotechnological or information technological macro- or nano-device technologies, weapons, chips, bio-information media, that are capable of causing damage to health, capable of mass destruction, elimination or modification of myself-consciousness, human self-consciousness, the induction of anti-life frequencies are unforgivable capital crimes and their Anti-Life application or deployment are not-time-limited crimes.
The liability of those involved in the decision making on devices and weapons capable of mass destruction or killing listed and not listed to be created at any time with future technologies is unlimited. Their guilt is capital and / or unforgivable, depending on the extent of their involvement.
7. Inventor, distributor, user, implementer of those technologies that are in conflict with the MAAT Act and pose a threat or permanently detrimental effect on Natural Values, the life and health of animals, plants, people, clean consciousness, human dignity and Life, commits an unforgivable capital crime that is mprescriptible.
8. Scientists, laboratory assistants, technicians, teachers, psychologists, professionals who carry out impact assessments of learning materials, descriptions, processes, technologies and who are not sufficiently careful in doing so, or they do not take the necessary time and falsify the results, or do not carry out directed tests, or do not carry out some tests so that to influence the end result, and, as a result, they certify invalid quality, or provide a non-reliable basis for marketing authorizations, or provide expert advice under pressure, etc. – they commit a major unforgivable capital crime against Nature and Humanity.
9. The inventor, distributor, user of such intellectual contents which are capable of manipulating persons or masses, capable of suppressing Natural human intelligence and ingenuity, capable of suppressing sobriety and influencing people to become dreaded, mechanized, alienated from themselves, struggling with self-esteem and mental problems, becoming self-destructive or publicly dangerous – are unforgivable capital crime.
10. The inventor, distributor, user and executor of such Intellectual contents that instigate people against each other, encourages chauvinism, unjustified discrimination based on gender, race, age, identity, or religion, and / or distorts, falsifies informations or news – commits a capital crime.
11. Since the Universal Holy Spirit / God / MOTHER NATURE GODDESS has entrusted Her most holy wish, the transmission of the Holy Life, to the Woman and has endowed Her with all knowledge and wisdom

for this task, therefore religions, religious organizations ideologies and their followers who hold Women in ignorance, contempt, humiliate, impure, treat them as inferior, exclude and humiliate them – be their doctrines and sayings deleted from the face of this planet forever and be they handled as pariah, being subject of public contempt!

What distinguishes Male and Female from humanoid is that how they relate to Life, to women, to the weak, and to the fallen.

12. Those who have created or create false ideas, worship arbitrary, far-from-reality idols, subordinate races, groups, peoples down and over, represent money and acquisition in a positive attitude, subject Life to enrichment, and make the world economic, inspire quantitative consumption – they commit an unforgivable capital crime.
13. Those who, in the name of science or through its application, misinform, disseminate false results, false information, teach false knowledge, or conceal technologies that would improve or preserve the lives of Mankind and would protect the environment, those who infect the masses, disfigure them – they commit imprescriptible unforgivable capital crime against Humanity.
14. Those who, driven by an ignoble lustful desire for power, profit or adventure provoke chaos, anarchy, make war or participate in it, those who design, manufacture, store, possess or use weapons of any kind suitable for mass destruction -they commit genocide in any form, even hidden so they commit unforgivable capital crime.
15. Those who, driven by an ignoble desire for power or profit, by the use of electronic media interfaces collect data, make general observations, manipulate news, withhold important information, misinform and thereby offend private interests, serving state power or indefinite purpose, leaving others in ignorance or they infringe the interests of the right to privacy of the public, or they cause other kind of damage, pain, suffering, or lying under – they commit unforgivable capital crime.
16. Those persons, groups, states guided by a lowly, selfish desire for power, who privatize, expropriate and shape, manipulate, put up for sale or utilize the arts, science and its achievements, discoveries, according to their specific ideas not promoting good morals, or not serving the benefit of the public and are not for the benefit of Nature in real – they commit unforgivable capital crime.
17. Persons or groups who, leaded by personal interest, profit, power or for any reason detrimental to the public weal, withhold or conceal innovations, scientific results that could otherwise serve the public good or Nature – they commit unforgivable capital crime against Humanity and Nature.
18. Those lowly inferior persons, groups, states that, by their activities, without having any justifiable cause and need in accordance with the MAAT committed, engage in any activity that would cause unforeseen damage against Humanity or Nature and thereby damage the ecosystem – they commit unforgivable capital crime.
19. Those lowly inferior persons, groups, states, having the power to influence the financial and economic processes worldwide, that jeopardize or eliminate the viability and resilience of societies, their health, social and welfare systems by privatizing the benefits and spreading the damages to them – they commit unforgivable capital crime.
20. Individuals, groups, nations, societies that tolerate and give their tacit consent to sins will themselves become complicit and will have to suffer in countless and severe forms in the period of the imminent final shutdown.

Those who want a blessed Life on this Earth must put an end to quailing and must call conspicuous sins by name, and act!

The long period of enjoying exemption from the result of deeds is over for everyone, so People must finally put Order in their own living space! Failing to do so, sinners must reckon with the judgments of Mother Nature Goddess, that will no longer take into account Man and any of Man's ideas about Life!

PENALTIES

Crimes, on one hand, are punishable crimes under public law and, on the other hand, require a moral judgment.

The punishment for sin must always be strict but just and proportionate according to the Sacred Order. It is the right and duty assigned by God to Man to comply with the Order of MAAT and to enforce the Sacral Order within his own systems.

Therefore, any kind of hypocrisy or doing the agreeable, humanism created by hypocritical humanoids, and all attempt to loosen up in the strict Sacral Order of the MAAT is sinful and reprehensible. Any bit of concessions are the path to decay, in the long run causing the depletion of Humans, the rise of humanoids, and the mental-spiritual-physical decline at all levels.

Life in itself is Divine, sublime, wonderful, and it is the sacred duty of Mankind to honor the wonders of Life in its diverse variety in every way and to consciously sustain it in its own living space and circumstances.

Destructive forces are present in all spaces and times but they are appropriate only for limited extent in the world.

But the Universal Holy Spirit / Goddess / Our Almighty Lady seeks continual improvement through the execution of the Holy Life, and therefore, in accordance with Her will, MAN must control the destructive forces with responsibility and must be aware free from hypocrisy.

Even if / when Man have to make relentless, difficult or painful decisions.

It is the duty of the COUNCILS of the RIGHTEOUS' to maintain and preserve the operation of the Human Communities faithful to the MAAT. It is also their jurisdiction the supervision of Community, national or international justice and law, and the the imposition of sacred penalties in certain extreme cases.

The most severe sacred punishment is live burning and beheading, as the Life that comes out of the burned and beheaded can never return to Life. The penalty of burning alive should only be applied to those who have committed imprescriptible unforgivable capital crime against HUMANITY and the MAAT. Beheading may be ordered for those who have committed other kinds of imprescriptible unforgivable capital crimes.

Such severe sacred punishments can only be imposed on humanoids by NOBLE TRUE PEOPLE.

The purpose of these punishments is to ensure that the severely destructive set of energy that has appeared in the given humanoid will never again have a chance at Life.

Humanoids can only act against their own kind, but humanoids are forbidden to judge PEOPLE, NOBLE PEOPLE and SACRED WOMEN.

SACRED WOMEN must not be held accountable in any court, they may only be judged by the COUNCIL OF TRUTHS'. And if a SACRED WOMAN commits a sin against MAAT or betrays Her nation, she may only be punished with the most severe judgment, because the highest esteem comes with the greatest responsibility.

Imprescriptible unforgivable capital crime

Its punishment is a grave death by sacred destruction, burning, or beheading. It must not be buried in the ground, its ashes should not be scattered into water.

The supplementary punishment is the total confiscation of property of himself and his family dating back 3 generations.

Unforgivable capital crime

The punishment is death. It must not be buried in the ground, its ashes should not be scattered into water.

The supplementary punishment is the total confiscation of property of himself and his family.

Capital crime

Its punishment is irrevocable and/or total divestiture from rights, or hard penal servitude, depending on the sort of the crime.

Divestiture from rights deprives the human/humanoid from all social rights, including the possibility of legal redress. In addition to the above, the total divestiture from rights also dispossesses the deprived

person from the right to self-defense.

The supplementary punishment may extend to the total confiscation of property of himself and his family dating back up to 3 generations on occasion, depending on the type and severity of crime.

Serious crime

Depending on the type and extent of the crime, the punishment may be either temporary divestiture from rights, penal servitude, imprisonment, and disqualification from mental or other given work, total or partial confiscation of property.

Crime

The punishment must be confiscation of property, imprisonment, and heavy or light penal servitude, depending on the type and extent of the crime.

A supplementary punishment must be disqualification from mental or other activity.

However, men having committed sexual assault must be physically castrated. Women must be chemically castrated.

Misdemeanor

Misdemeanors have a long range and are most commonly committed in the course of occupation or transport. As a general rule misdemeanors are punishable by fines according to their type and extent. Persons judged to penal servitude must not do clerical work, installation and construction work, must must not handle water, and must not work in places where they may come into contact with food. Penal servitude may be carried out in the areas of road, dam, embankment, ditch constructions and cleaning, street sweeping, industrial waste management, garbage disposal, by-product cleaning and mining.

Even during the course of total confiscation, everyone has a simple, modest, secure cover over her/his head. The convicted person may never be put in a position to sustain her/himself and those entrusted to her/him only by committing another sin. Therefore, all family circumstances must be taken into account when judging, and it is the personal responsibility of the sentencing judge or people's presidents to deliver a proper verdict. Whoever lies in connection with her/his social and family circumstances, her/his punishment will be aggravated.

Family contact must not be taken away from a person under punishment, a breastfeeding child must not be separated from his or her mother until the age of 3.

As a general rule, a healthy, loving mother must not be separated from her son until he becomes 8 years old or from her daughter until she becomes 15 years old. Primarily, maternal love and family security are the food of Life. A child who must not benefit from this blessed feeling will be harmed throughout her/his life and this will also affect her/his human relationships as well as sexual behavior.

Therefore, it is advisable to give priority to supporting families, especially mothers, in all respects.

A child who leaves the loving parents for a better life has little chance of becoming a True Human. In decent poverty, a persistent and grateful child in his or her family circle can even become a NOBLE MAN. Therefore, it is a crime to promise the child a better life and to persuade him/her to leave his/her family.

Families and community associations must pay special attention to the lives of their children and family members, because the crimes they commit can have repercussions on other members of the family who are innocent in the matter.

Where the consequences are borne by families, they pay attention to the children's way of life, they demand decency, and this has a constructive effect on society as a whole.

Permissive and mild jurisprudence is a hotbed of sin, so fair, but very strict rules that are respectful of human elementary freedoms ensure a happy and peaceful life.

Where rule-makers and judges are TRUE NOBLE people having filled their 42 years, austerity does not become murderous barbarism, and has a forward-looking effect on societies. Public morale and public order will improve, and Life becomes safer and happier.

Rules and penalties are not for themselves and should be applied soberly.

It is the moral responsibility of judges and those working in public affairs to make people feel safe and as

a result, be satisfied with the administration of justice.

TRUTH, HONESTY, SOUTHNESS AND HONOR ARE MORE IMPORTANT THAN ALL RULES.

Therefore, at given circumstances, even if someone did not act correctly by the rules, but acted fairly according to good faith, and in accordance with the MAAT, she or he must not be punished.

Everyone must be responsible and accountable for the sins committed. Where prosecution is a daily practice, sins do not have the potential for inconsequential gain and are therefore less popular.

Where strict rules dominate and People can exercise their original rights from God while also respecting their obligations to Her, sin draws back from there and strikes a nest where space is given to it.

All people and nations should protect the population and the world with their NEW system of penalty rules so that the citizens of the states can live in harmony with the Natural Environment, freely, with dignity, peace and happiness, without harassment!

CRIMES

Supreme crime – to violate the order of MAAT, to deny the order of Mother Nature Goddess, to push against Life.

Unforgivable, imprescriptible, capital crime – the evisceration of MOTHER NATURE GODDESS for any purpose.

Unforgivable, imprescriptible, capital crime – all attempts and actions to eradicate the diverse world of Mother Nature Goddess.

- It is an ungodly social behaviour** not to appreciate differences.
- It is an ungodly social behaviour** to behave in a social way that seeks to uniform people.
- It is an ungodly social behaviour** that does not support talents.
- It is an ungodly social behaviour** that uses the achievements of technology for harmful purpose.
- It is an ungodly social behaviour** that tolerates hatred.
- It is an ungodly social behavior** that restricts the community upbringing of children.
- It is an ungodly social behaviour** that ignores the egoism of children and juveniles and supports it.
- It is an ungodly social behaviour** that forbids legitimate, direct justice.
- It is an ungodly social behaviour** that categorically prohibits justified corporal punishment.
- It is an ungodly social behaviour** that gives rights to criminals.
- It is an ungodly social behaviour** in which people have to steal for their livelihood.
- It is an ungodly social behaviour** that tolerates those who live without work.
- It is an ungodly social behaviour** that do not encourage people to do good.
- It is an ungodly social behaviour** that encourages people to consume excessively and unreasonably.
- It is an ungodly social behaviour** that accepts quantity-production poor products instead of using persistent, quality products.
- It is an ungodly social behaviour** that consumes up the future and does not support Life.

VIRTUES

- Common sense and vigilance are the **topmost virtues**.
- Pure consciousness and inviolability are **main virtues**.
- The ability of sobriety and common sense are **main virtues**.
- It is a *main virtue* to recognize and act against falsehoods.
- It is a **main virtue** to follow the truth.
- Goodness, honesty and honor are **main virtues**.
- Moral reliability is a **main virtue**.
- Persistence and perseverance are **virtues**.
- Willingness to cooperation is a **virtue**.

Flexibility is a **virtue**.

Solodarity is a **virtue**.

Selflessness is a **virtue**.

Trust is a **virtue**.

Self-confidence and inherent trust are **virtues**.

Good taste and sense of proportion are **virtues**.

Temperance is a **virtue**.

Severe simplicity is a **virtue**.

Little talk is a **virtue**.

Silent attention is a **virtue**.

Peaceful nature are **virtues**.

Hospitality and kindness are **virtues**.

Cheerfulness and good humor are **virtues**.

Strength and courage are **virtues**.

Determined vigor is a **virtue**.

Discipline and a sense of duty are **virtues**.

Renunciation is a **virtue**.

Correct self-knowledge is a **virtue**.

Categoric action against depravity is a **virtue**.

Everything we do along the principle of most good are **virtues**.

To help others, to nurture those in need are **virtues**.

All deeds and thoughts that result in harmony are **virtues**.

All deeds and thoughts that result in sincere happiness in the heart are **virtues**.

All deeds or thoughts that arise from sincere goodness and honesty are **virtues**.

All deeds or thoughts that are in accordance with the Order of the Universe or Allness are **virtues**.

All deeds and thoughts which are free from selfishness and sin are **virtues**.

Virtuous is a society that acknowledges Nature's Sacred Rights and organizes its daily life submitted to it.

Virtuous is a society where Nature is the Master and Man is Her friend.

Virtuous is the social behavior that follows the best principles.

Virtuous is the social behavior that ensures people's freedom.

Virtuous is the social behavior that puts knowledge, health, peace, and happiness before everything else.

Virtuous is the social behavior that considers health, happiness, joy, and satisfaction as its primary measure of value.

Virtuous is the social behavior where people live healthy and heal patients with the best, most natural remedies.

Virtuous is the social behavior where people find the disease unnatural.

Virtuous is the social behavior that puts any economic or private interest behind the social and community interest.

Virtuous is the social behavior that collectively educates children for the good and cares for all children with love.

Virtuous is the social behavior that teaches children to live life, work, and the joy of creation with loving rigor.

Virtuous is the social behavior that respects, loves and cares for the elderly.

Virtuous is the social behavior that puts Mothers at the center of society and cares for them.

Virtuous is the social behavior in which 30 hours of work a week is enough to ensure a decent living.

Virtuous is the social behavior is where the difference between the lowest and highest wages does not exceed seven times.

Virtuous is the social behavior that rewards everyone's work and effort fairly.

Virtuous is the social behavior in which domestic violence is deeply despised and severely sanctioned.

Virtuous is the social behavior in which people of different energy qualities do not mix with each other while respecting each other.

A **society** in which family keepers serve their families with love, fairness, responsibility, and dignity is **virtuous**.

A **society** where the breadwinners are Men and the heads of families are Women is **virtuous**.

A **society** in which everyone is given the opportunity to develop is **virtuous**.

A **society** that respects all kinds of work is **virtuous**.

A **society** where lifelong learning is daily practice and expectation is **virtuous**.

A **society** where everyone can do the activity to which she/he has a God-given talent is **virtuous**.

A **society** where people do not have to wear forced roles that are alien to their own personality is **virtuous**.

A **society** where people respect each other is **virtuous**.

A **society** where people live healthy and heal patients with the best, most natural remedies is **virtuous**.

A **society** where people find the disease unnatural is **virtuous**.

A **society** where ancient and good traditions are firmly preserved is **virtuous**.

A **society** where modernity coexists with a living folk tradition is **virtuous**.

A **society** where folk music and dance are popular is **virtuous**.

A **society** where craftsmanship and creativity are values is **virtuous**.

A **society** where cheap and vile mass products are despised is **virtuous**.

A **society** in which all segments of life represent quality is **virtuous**.

A **society** with strong relationships, trust and love between people is **virtuous**.

A **society** where the word of honor matters and Life operates on a trusting basis is **virtuous**.

A **society** that respects and keeps Waters, Air, and Heaven clean is **virtuous**.

A **society** that follows decent satisfaction and despises revelry and debauchery is **virtuous**.

A **society** that does not tolerate tyranny and aims Peace is **virtuous**.

A **society** that maintains state systems for its own benefit and that serves the interests of its nation and its citizens is **virtuous**.

A **society** that condemns compromise and stands up for itself is **virtuous**.

A **society** where people are brave and just is **virtuous**.

A **society** that seeks peace and good cooperation with other peoples is **virtuous**.

A **society** that is grateful to God and trusts in is **virtuous**.

UNIVERSAL ORDER OF MAAT

The Order of the MAAT is the complex of the Natural and Moral Laws that are independent of the will, desire, idea and culture of human or any living being.

Humans or humanoids imagine the world in countless ways, yet it still works the same way.

The order of the MAAT is a purely Natural, energetic law/order, and no human illusion nor beautifying false humanist idea may be forced into it.

Much of the uplifting knowledge of the ancestral culture has been faded away due to the nullifying endeavors that had been existing for hundreds or thousands years. Therefore the ancient culture had been replaced by morbid spiritual formations. Viewed from this injustice, the Order of the MAAT may seem cruel and inhuman.

Over time, more and more harmful ideas have been insidiously undermining the immune systems of societies, and these are now incorrectly accepted by people as facts and truths. It is therefore incorrectly believed that the rigor of the past and many sacredly important and obligatory acts are „barbarism“, not humane, and „should therefore be condemned“.

At the same time, there are no truly functioning models — given the current general mental-spiritual-physical state of Humanity for the real upliftment of the Human. All solutions devised by social researchers can only be sustained in the short term and in relatively small populations.

When Human tests and considers moral principles of uncertain validity, it must be taken into account that it is not Nature that depends on Man, but vice versa.

Therefore the sober Human is obliged to remain with Nature in Harmony and Peace.

Any opposition and attempt to break out in any direction only piles on the troubles and is doomed to failure.

Humanity and the natural environment have just suffered enough from those who imagine themselves in God's place, and the time has come to finally truly implement the ORDER of God's will, which the ancient writings refer to as the state of paradise. But this coveted state, also known as the Golden Age, can only be realized through firm adherence to the original, simple, but very strict Sacred Beings. Therefore, people must grow up to the personal responsibility that God has endowed them with.

We have come into this world to bring ORDER, PEACE and HARMONY.

To reach this goal, we will first completely and definitively eliminate injustices at all levels in order to give place and Space to Humanity to develop a new worldview based on truth and fairness.

All this can only accomplished by complying with the order of the MAAT!

THE ESSENCE AND NATURE OF GOD

1. The most intrinsic Essences of the Universal Holy Spirit, or God: Space, Time and Information – the Holy Trinity, symbolized by the triskelion.
The most sacred aspirations of the Universal Holy Spirit (God): ORDER is BALANCE and HARMONY. These three sacred endeavors govern the Universe and result in God's warmest desire: the HOLY LIFE and the primary TRUTH springs from them.
2. The primary TRUTH, that is, the MAAT, which is the Eternal Law/Order of the Universal Holy Spirit, stems from the most sacred aspirations of GOD — this constitutes the LAW, or the ORDER OF THE MOTHER NATURE GODDES.
3. GOD / MOTHER NATURE GODDESS makes the laws/order by EXISTENCE AND LIFE.
4. Only the NATURE LAW/ORDER OF THE HOLY UNIVERSAL SPIRIT can be called LAW.
LAW/ORDER comes into force and becomes effective by Mother Nature Goddess. All living, inanimate, manifested, or unmanifested beings or entities are subordinated to these Laws.
5. A Human being must not create Law because the LAW/ORDER is eternal, unchanging and unchangeable.
6. God is GOOD that means, complete and perfect. GOOD is the ONE itself and the ONE is the Trinity of Space, Time and Information itself.
7. The ONE, the GOOD, the Universal Holy Spirit / Our Almighty Lady / Goddess / Creator / Almighty / MOTHER NATURE GODDESS is righteous and loves every Human as much as Human loves and respects the God living in her/him.
8. Everything comes from – SPACE ARA, 'RA.
Information IGI- was the first verb, and the consequence of these two is Time, which is called MA.
9. The ancient name of the Universal Holy Spirit / Goddess / Our Almighty Lady / Creator / Almighty is MA-IGI-ARA, or MA-GU-RA. The holy circles of the MOTHER NATURE GODDESS were named MAGURA-s and the TRUE Ones were named Hungarians.
10. Time does not exist independently of Space, and everything exists or happens in the MA, that means, in the present. Time connects and separates beings in the moment.
The whole existence is temporarily permanent, passing and rebuilding from moment to moment. Therefore, in the manifested worlds only the Change may be considered permanent.

11. The Universal Holy Spirit implements the Order of Mother Nature Goddess, the MAAT, through the Seven Elements, the six-beddings. These are in order: Sound, Air, Water, Tree, Sun-light, Fire, Earth.
12. The Seven Elements have right to their own essence and purity and Human may only be given a dignified, healthy life if she/he respects the rights of the Elements and lives according to them. If one is disrespectful of the rights of the Elements, she/he will expect occurrence of many diseases and catastrophes by the Elements. One can insist, but one way or another, in the end, always MOTHER NATURE GODDESS wins.
13. The Universal Holy Spirit / Goddess / Our Almighty Lady, by its very nature, does not require sacrifice, food nor drink, and most importantly no sacrifice of children, no virgins nor Lives nor blood. All such offerings are futile, unnecessary, sinful, and are against God.
14. The Universal Holy Spirit / Goddess / Our Almighty Lady does not require prayers, hymns and never had given specific absolution nor forgiveness of sins. Guilts must be repented and redeemed as much as possible! We must live that way so that no repentance would need! Only gratitude from the heart and a feeling of intimate love reach the Almighty.
15. Life was given to us by the Universal Holy Spirit / Goddess / Our Almighty Lady to be appreciated and thanked in given place at a given time, and people under no circumstances should worship idols even idols of thought. Life loves the One who loves Her!
16. It is not necessary to worship nor to love the Universal Holy Spirit / Goddess / Our Almighty Lady on a conceptual level, nor to believe in Her, but Humans has to accept Her imprescriptible laws/order. The fruit of Her creation, all the treasures of the Holy Life; music, creative moments, Beauty and Harmony are received with grateful heart by Human! The excellence of People's and their all kind of eminence is God's blessing, so people should be honored during their lifetime reality and not after. The Almighty is 'present' in every moment, so in order to express honor towards God it is sufficient to feel simple Naturalness and Love in every coming moment and fade into the Being!
17. The Universal Holy Spirit / Goddess / Our Almighty Lady resonates with the True Souls of True People, their deeds of harmony, and carries on Her palms all who live as Truth. Her benevolence must not be solicited, demanded, coerced by any practice, nor purchased. Her grace may be evoked with gratitude, goodness and selfless desire from the heart and with sincere life free from deceptions.
18. The Universal Holy Spirit / Goddess / Our Almighty Lady Herself is the Sacred Spirit, who resents from hypocrisy, idolatry, from dogmas, deception, over-zeal and all sweat-smelling endeavors. As soon as one of the above appears, the Divine Love, the Blessing and the Blessed Gloria fade away.
19. The Universal Holy Spirit / Goddess / Our Almighty Lady is attracted to Spiritual Purity, but she does not require beautiful words, promises, spectacular garnishes. She rather appreciates the puritanical simplicity and straightforwardness.
20. The Universal Holy Spirit / Goddess / Our Almighty Lady has given the right to every living entity to defend himself, and She has never transferred this right to self-nominees, states, organizations. It is in accordance with Her will for someone to defend him/herself in any way commensurate with the attacks and threats – even at the cost of killing Life. The Universal Holy Spirit / Goddess / Our Almighty Lady always supports the Righteous Ones, and nobody should feel guilty if she/he vigorously protects her/his own nor the lives of the weaker from real dangers and injuries!
21. The Universal Holy Spirit / Goddess / Our Almighty Lady expects living beings and people to live, prosper, and multiply the best by selection, fulfilling by this Mother Nature Goddess' intentions for continual improvement. Furthermore, she expects that, in accordance with the order of creation, one will give birth to offspring with the similar one!
22. The Universal Holy Spirit / Goddess / Our Almighty Lady has never wished, nor felt being at home in ornate palaces nor in temples that symbolize power and are the places for deceiving the people. Even so when and where she appears in such places, it is thanks to the Love that comes from the

Immaculate Spirit, the heart and the sincere desire of the believers.

One can get closer to the Universal Holy Spirit / Goddess / Our Almighty Lady in Her holy circles, in the simple temples of Nature, in the MAGURAS.

23. The Universal Holy Spirit / Goddess / Our Almighty Lady cannot stand if someone exercises conspiracy, power, nor if parasitises by using Her name. Being the originator of nature, she does not require guardianship, protection, nor anything else from any human being.
Those shameless ones who commit any falsehood in the name of the Almighty live in constant fear and, as a result, they are forced to maintain their power through deceit and struggle. Those mental renditions that can only be sustained by deception, violence, intimidation, conspiracy, accumulation of splendor and money are very far away from the True Feelings and the Holy Spirit of the Universal Holy Spirit / Goddess / Our Almighty Lady.
24. The Universal Holy Spirit / Goddess / Our Almighty Lady cannot stand complaining, lamenting, wailing, nor the lack of sobriety. On the other hand, she loves and attracts, and therefore supports those who, with a sincere heartfelt determination, embark on difficult or uncertain paths for pure purposes and persistently do their utmost to fulfill them.
Those who help themselves may count on Her help, provided they have no expectation to do so. Because she/he who waits for Her help will not receive it, yet she/he who does not ask but deserves it with her/his virtues can receive it.
25. The Universal Holy Spirit / Goddess / Our Almighty Lady is not an automat for fulfilling desires and does not love anyone or anything who does not conform to Her reality of existence, the primary principles of Life. Those who do against the Universal Holy Spirit / Goddess / Our Almighty Lady will suffer constant shocks, damage, pain, sickness, while those who live according to Her law/order are simple, great, and True, will prosper, sing, and play music.

UNIVERSAL FUNDAMENTAL STANDARDS

I.

1. The worlds are derived from the ONE and are governed by the Universal Eternal Laws/Order through the MAAT – the Legal Order of Wholeness, which must not be changed nor repealed.
These Laws are true and uniform on all scales and strive for balance.
2. The Universal Eternal Law/Order rests on the principle of creation from one to another. This law operates on a purely energetic basis, regardless of any subjective or material influence. Energy qualities complement each other, there is no contradiction or struggle between them.
3. According to the Universal Eternal Law/Order, energies always fill the space available to them. It does not allow exaggerations, and as soon as certain energies become predominant, the Universal Holy Spirit, through the MAAT, gives way to opposing or necessary balancing energies, thus restoring Order.
4. The Universal Eternal Law/Order is equally true and valid for all manifested and unmanifested beings as well as all beings that may ever exist, regardless of scale. In each space and time, according to the energies characteristic to the given plane of existence, based on the same system, different sounds, shapes, colors, smells, living or inanimated existences and beings, as well as formations, entities, beings, species specific to the given plane of existence fill the Space.
5. The worlds are ruled by four forces. The first is the Creating Divine Power, that is, the Trinity, the second is the Creating Power, which human also possesses, the third is the Retaining Force, such as Love, and the fourth is the Destructive Power, which is mostly embodied in the Fire element. These Elements are equally important and need to be handled correctly.
The Creating Forces are the spiritual governors, the Retaining Forces operate the systems, and the decaying parasites are devouring and destroying everything. Because the different energies interact, impact with each other, it is unacceptable for decaying energies to come in the vicinity of the higher

order Creator Energies and weaken them. Forcing incompatible energies together leads to degradation and chaos on a social level as well.

6. Solid matter is the end product and slag of the Creator Energies. The denser the material, the lower its energy for internal transformation. Its internal or external attractions and repulsions can be deduced from the energy of the seven manifested elements and the nine principles. The scientific findings based only on the study of pure solids themselves are incomplete and their scientific factual statements are questionable.
7. Life is both a material and a non-material entity. Life is sustained by MOTHER NATURE GODDESS through the manifestation of the Universal Holy Spirit. The Holy Spirit shapes matter, gives information and connection, provides knowledge and emotions. Spirit, Soul and Information are principles that exist in immaterial unity, and they are pleased to create and form.
8. Life fills the Space of the Universal Holy Spirit harmoniously through a variety of colors, shapes, species, and varieties, so that all life forms exist in the space assigned to it, according to the characteristics of the given plane of existence. All living beings are in constant contact with the Universal Holy Spirit. Therefore, the state of existence, deeds, thoughts, and emotions of all living beings interact and have consequences for the whole quality of life on earth or beyond.
9. The Universal Holy Spirit, in accordance with the Principles of the Three times Three Trinity organizes the world and nourishes the Life. Life is intertwined, forming infinite, cyclical, strictly regular circuits. The time of cycles and the quality of time are related to the nature of the planes of existence. The energetic characteristics of the planes of existence are different, but neither is more important than the other. The diversity of energy qualities maintains Wholeness and Equilibrium, which are essential features of any form of existence in the Universe. Each energy subsystem seeks its main way to act according to the characteristics of the Main system it belongs to and therefore seeks to maintain and manifest its own complete inner purity and so discharges and shifts energies other than its own.

II.

1. Humans and humanoids have equal right to exist in front of the Universal Holy Spirit, but they are not equal. Their spiritual quality, attractions, differences in knowledge, social usefulness, and the extent of their efforts are different. Therefore, the given societies have to determine and must make differences between the earnings and property relations for each quality, because immoral and lowly beings must not have the same rights, property and must not do certain activities compare to Humans, Noble People, SACRED PEOPLE.

Humanoids are forbidden to work in any positions related to science, health, education, justice, penitentiary, communication, media and food and water.

Depending on the general wealth situation of the nations, in accordance with the principle of existence of the Universe, the difference between the minimum and maximum wages may be graded up to seven times and the difference in the property possessed may be graded up to seventy times in stages. The level of remuneration should be determined on the basis of the human-spiritual quality and the usefulness of the work done for the society.

2. Just as the energy sets of the manifested world belong to seven beddings, so do people represent the energy sets corresponding to seven beddings.

The 7th Supreme Sacred Order includes the influencers of the judicial and spiritual processes. Scientists-inventors, engineers, etc. belong to the 6th Sacred Order. In the 5th there are artists, teachers, environmental workers, food producers and processors, etc. The 4th includes healers, nurses, social workers, etc. Traders, administrative and law enforcement workers, construction workers, etc. belong to the 3rd. In 2nd the constructive, industrial and financial actors, and the servers of the former, as well as cleaners and intermediaries, etc., are included. Other industrial activities and waste managers are included in the 1st.

Based on the thinking, behavior, attraction and deeds of people and humanoids, as well as their

chosen job, they decide which energy set they belong to.

Where societies really want Order, they take a great deal of care to ensure that orders actually fulfill their purpose. No one may be classified as hereditary nor be forever in the same order because people can change, evolve, or deteriorate. It is therefore sinful to establish hereditary orders and to take advantage of hereditary titles. Everyone has to prove where she/he belongs by the deeds of her/his life. All attempts are sinful and deceitful that aim to conceal the existence of Orders or claim their being non-existing or harmful. Orders have always been existing, they are and will exist, until Humanity, all the people and all the nations reach their Divine Nature.

In the age of Fire, the only way to reach the Divine Nature is to walk through the hells of earthly life, then ascend and experience Divine Being, and then return to Earth again and throb with Life. Those who call themselves masters, have withdrawn from Life and placed themselves in a certain space have never attained their Divine Reality. It is the Divine Being who has walked the filthy paths of Life and came out of hell with childishly pure, free spirit, recognising and reconciling all harmful beings. Once one has attained the quality of a Divine Being, she/he returns to earthly life and as a NOBLE MAN, and does her/his doings as a Sacred Entity, mostly in retreat. The Divine Being is simple, unpretentious, and mostly does not live as a Teacher.

Even a humanoid can become a divine being if he transcends his pettiness, goes through the pitfalls and temptations of hell by continuous improvement, follows high-ranking ideas and finally becomes glorified. Glorification is an internal, very painful alchemical process that must remain a secret if anyone wishes to attain the quality of the Divine Being.

3. Everyone has the inalienable right of God to access sunlight, fresh air, clean water and nourishing food. Everyone has the right to housing, even the deprived has the right to have a simple but safe cover over his head and to have access to healthy food and clean water. It is the duty of every society to ensure that everyone lives in safety!
4. Due to their danger to society, humanoid beings must not obtain a license nor ownership of any vehicle, nor may they possess a watercraft, aircraft, other motor vehicle, drone, weapon, nor certain chemicals. They must not acquire knowledge about causing greater harm.
5. A person who commits cruelty, abuses, humiliates, or deprives the vulnerable, humanoids, prisoners, and deprives them from their God-given rights as air, sunlight, food, water, family relationships becomes a humanoid and should be treated accordingly! Punishments should be strict, but perpetrators should represent the example of the quality of the human race.

Everyone is qualified by her/his actions, so everyone should act in such a way that she/he can preserve her/his human nature, in her/his superior Human quality!
Being and staying human is a lifelong responsibility.

6. Human beings and humanoids must acknowledge that they are part of the terrestrial ecosystem and that they are authorized to formulate rights only in the field of human-human relationship, by taking into account the rights received from the Universal Holy Spirit / Goddess / Our Almighty Lady. They must not set nor apply rules to other living things. It is a serious crime to force animals to live alien to their Nature, to conform them to human desires, to stunt them, to mutilate them, to feed them with strange food or non-clean water, to torture them, to hold them captive, or to fight them or to use them for any abuse.
7. Human beings should recognize that the creation of various living beings is the responsibility of Mother Goddess, and therefore no group or individual member of Humanity is entitled to interfere in the natural processes of living beings for any purpose. Manipulation and genetic modification of living beings is prohibited, as all existing life forms are in a sensitive energy and information bonding network. Any arbitrary intervention will cause a domino-effect and therefore overturns the delicately tuned ecological balance, and, as a result, insects will be the first to respond to the changes. In the absence of knowledge of Oneness and Completeness, humans must not play God because

she/he only brings trouble to the whole living world. Once human has learned the rules of the Wholeness, she/he certainly would not want to disturb the subtle web of existence.

8. Human beings and humanoids must acknowledge that other living beings, including plants, must not be considered their property. The keeping of farm animals and animals for slaughter is permitted only if the animal is provided with living conditions in accordance with its own nature and a healthy, natural diet. Mankind must not interfere in the specific internal conditions of other living beings.
9. Human beings humanoids should recognize that they must not form property or possession rights to each other or to any other resource of the other.
It is a crime to exploit or plunder the vitality or other beneficial qualities of other humans at any level or any extent. Selfishness, babbling, and intentional misinformation are serious sins and human deficiencies. Societies need to tightly regulate the extent of ownership / possession, trade, finance, and moral rules of information disclosure, preventing unrestricted privatization.
10. The Universe accommodates innumerable life forms. The Earth is just a place for living, inhabited by several humanoid species in addition to Plants, Animals, other Organisms, and Microorganisms. The various humanoid species rarely or not reproduce with each other. Mixing of races is possible, but it causes disharmonious beings and therefore chaos, so it is contrary to the Universal Eternal Law/Order.
11. Humanoid beings and humans are part and shapers of the Universe, of earthly existence, and of the ecosystem. There are also non-humanoid creatures living in the Universe.
Every living being has the right to its own living space and to protect it.
Other beings, humanoids, humans must not decide which species are necessary to exist, and they must not classify species into lower or higher categories.
The diversity and richness of the species is important, Natural and necessary at all scales, in accordance with the Law/Orders of Mother Nature Goddess.
12. Humanoid beings, people, are only one race among all other constituent races, for this reason she/he must subject her/his own life and living conditions to the Order of MAAT on any plane of Space and Time. Humans must not elevate themselves above and beyond the interests of any other living beings. In case she/he does so, according to the the Universal Eternal Law/Order, the Universal Holy Spirit opens new spaces, and balances the disproportions according to their other types of characteristics, and destroys the overgrown forces and beings who intend to override or disregard the Order of the MAAT.
13. The visible life forms on Earth are mostly bisexual, and this bisexuality maintains the dynamic individual development, variety-rich reproduction and survival of the species. Survival is the goal of all living beings and it is their natural right to choose effective ways of transmitting and preserving Life.
14. In all living bisexual forms of life, female descendants carry the life energy and the Law/Order of the Universal Holy Spirit, so females are primary. Therefore, it is their right and duty to preserve and enhance the viability of themselves and their breed, and to select their mating partner for this purpose. Males compete for the opportunity to pass on Life, thereby maintaining the viability of breeds.
15. The main purpose of the Universal Holy Spirit is to sustain Life, and therefore always the most capable individuals will survive, thus providing the proper life energy for the given species.
The Universal Holy Spirit supports the survival and improvement of the living conditions of those individuals who are the best in all respects and who fit the Unity the most.
Processes directing towards the decline of individuals or inbreeding inhibit the Life's goals of continuous improvement and species richness.
16. Species successfully fulfill the intentions of Life and survival if they are organized into groups /societies within the given species, form rules, unite their intentions and accumulate their effects that strengthen their vitality.

17. At the material level, struggle between species, varieties and individuals occurs naturally but the quality of the plane of existence determines the extent and quality of the losses resulting from collisions. In energy-poor planes, females suffer from disadvantages, so severe losses due to the nature of the plane or the lack and decline of quality energy are mostly compensated by quantitative reproduction.
18. The Universal Holy Spirit supports Life and eliminates all aspirations that are anti-life, artificial, and are opposed to the MAAT, by opening up spaces that are necessary or provide qualitatively better opportunities for Life. Therefore, all artificial and anti-life arrangements are legally doomed to failure and destruction.
19. The Universal Holy Spirit / Goddess / Our Almighty Lady is the Completeness itself, and therefore directs the processes of construction, retention, and decomposition. In the full realization of the MAAT, Life is harmoniously built and flourishing. When deviating from the MAAT, the artificial maintenance of the systems is only possible through energy waste. The Universal Holy Spirit strives for efficiency and is opposed to extravagance life.
20. No species have the right to lay down rules different from those of the MAAT and, in particular, must not engage in such a practice in relation to other species. Every race or species have the Holy Right assigned to them by the Universal Holy Spirit / Goddess / Our Almighty Lady to live and reproduce according to their own rules, and in the absence of a real threat to its own existence, another race has no right to interfere to this. Therefore, Humans must not create any rules for or against Nature, and must not influence relations between other species, as well as habitats, and is obliged to accept and respect the Laws of Mother Nature Goddess.
21. The Living Sacred Soul of the Universal Holy Spirit / Goddess / Our Almighty Lady moves into the offspring of the viviparous within 24-72 hours of the origin of their independent existence. Therefore, everything that happens to the living being, the human baby, in this period leaves an imprint on her/him that defines her/his whole life. Therefore, each living entity in this period must perfectly experience maternal devotion, her/his own natural medium, otherwise she/he is alienated from her/his own essence. Babies should not be exposed to shock, strong light, noise and metals during this period. Only women of good spirits are allowed to be present at childbirth, and until they have been bathed and the mother has consecrated it to Life in her breast, no one, especially men, may touch it. Baby should be nursed quietly, humming, walking, lulling for at least 72 hours after birth. The baby into whom the Holy Spirit moves in this way will feel happy in safety for the rest of her/his life, and there will be no doubt in her/himself.
22. Life must be received beautifully so that to live it happy, and it must be left by beautifully saying goodbye to it.
As fast as Life arrives, it departs in the same way. Therefore, one must talk to the leaving person with love for 72 hours, play music, sing to him, and kindly release him into Unity. The purity of the Spirit makes it easy to return to the ONE; the heavy soul clings to living reality, and finds it difficult to leave. Man's life was complete and perfect when the Incoming Spirit and the Outgoing Spirit are equally easy and pure.
23. The Universal Holy Spirit / Goddess / Our Almighty Lady entrusted the Flower of Life to the Woman. Therefore, it is the sacred duty of the Woman to carry on Life in the best quality, to keep herself well, to cultivate, so that she can nurture the Flower of Life beautifully.
All mature noble Women are who are able to maintain Order, are called Women.
Cultivation of the Flower of Life means the enrichment of Beauty, Love, Harmony, and Knowledge, as well as the birth and upbringing of children and the merciful care of those in need.
24. The Universal Holy Spirit / Goddess / Our Almighty Lady has ordained the Male to help, support, uplift the Woman with Her existence and all Her deeds, to be a faithful and good companion so that She can cultivate the flower of Life beautifully.

A MAN is a mature male who is able to serve Life, the Woman, with a raised head, dignity, and honorable humility, and who is able to undertake responsibility for himself and others.

25. The task of the Woman is to serve the Life, to pass on the language and culture, and it is the duty of the MAN to ensure that the WOMAN can perform her service without interruption. It is the MAN's job to protect and defend the family, earn an income and take care of the well-being of those entrusted to him. The income and earnings of the breadwinners of the families does not belong to them, but to the whole family. Income must be shared jointly by family members in all families.
26. The Sacred Woman, the Noble Golden Woman, the People's Mother, the wise Woman with great knowledge, takes on a social role without any dependence and acts for the common good, Harmony. She must not be engaged to a man. She may live alone or have multiple spouses, but She must not serve Men or partners. The Sacred WOMAN is the leader for Men, the servant of Her nation, Her people and the common good.
27. The Sacred MAN is NOBLE, knowledgeable, tasteful, peaceful, respects and follows the path of the MAAT, devotes himself to His chosen Woman, exalts Her, and is an example in Her life and deeds. In his social role, He serves his nation, His people, and humanity, and together with the Sacred Women, they jointly perform social practical tasks.
28. The teacher, master, ecclesiastical person who follows the abstract concept of God and the philosophies, follows the manifested reality of the Holy Life, idols and prophets called Gods and their teachings and goes out from Life – must not be considered an authentic sacred person following the path of the MAAT.

The Sacred Person, Teacher, must pulsate together with Life in order to perceive and correct the manifestations, the deviations from the order of the MAAT.

Those who think of themselves as gurus, prophets, church leaders being in a supposed position and do not participate in the Created Reality of God – they go astray and mislead their followers.

Exceptions from the above are the Spirit-guarding virgins: the LILI-s.

LILI is chosen from the age of 3-5 among suitable, beautiful-minded, kind, smart and service-minded, caring little girls, and they have to grow up in complete isolation until they are 28 years old – they must not meet or see males – their lives are dedicated to nourishing the Holy Spirit, maintaining Harmony, and learning the arts, sciences, and wisdom. After the age of 28, they continue their function as a Sacred Women for the benefit of the world. However, not all Sacred Women need to start as Soul-guardians.

Males are unsuitable for Soul-guarding task because their gene pool is asymmetric.

A male who lurks or touches a LILI commits a crime against Life for which he will be stigmatized. If he commits dishonour, he will be deprived of his life as a consequence of his mortal crime.

STATEMENTS

1. The universe is dominated by an undivided Equilibrium. Balance maintains Harmony and healthy development. One who overturns Harmony will clash with the power of the Seven Souls of the Universe.
2. The seven equal forces generate and shape the world. The eighth force gives them space, and the ninth force sets the boundary, redirects the excess. They are the creative Primordial Forces. The Seven different qualities of energy represents the seven Souls of the Universe. These qualities are also called planes of existence in the Universe. Each of the planes of existence is a different type, but are compatible qualities to the above one they stem from. All planes of existence offer different living spaces. In the universe, all manifested and unmanifested forms of existence came into life from Their energy.
3. Life is the projection of the indivisible unity and harmony of the nine aspects of the Universe. Countless forms of Life exist on different planes of existence and they may interact with each other or

transform from one to another through ordained operations. The emergence of Life and death are such mechanisms. There are some planes of existence that are easy to access while others are not directly accessible. The chemical elements also evolve from one to another in obedience to the nine aspects of the Universe.

4. The decimal number system is a representation of the qualities of the Primordial Forces. In fact, there are only nine numbers in existence. The tenth is the iteration of the first. Zero indicates non-existence, pause. Everything stems from The ONE and multiplies to create new qualities until seven. Eight, like Infinite Space, is the first and all qualities together. And the ninth has only an overturning effect – it has no independent quality.
5. The eight Primordial Forces have sixty-four different manifestations. Chess was also created based on this. Chess depicts certain strategies of Life and conveys eternal laws. It also shows the role of WOMAN and MEN. The MAN is actually the commander who deals with worldly things, and the king is the WOMAN who controls everything. (The king is a gender-independent sacred entity.) As soon as the WOMAN loses Life there, the game is over. The Primordial Forces are standing symmetrically and completely together in the Women, so the queen-man (in chess) always protects the King-Woman (in chess), but cannot replace her.
6. Every human being's soul comes from the ONE, and every human being energetically starts from the same plane of existence in the first moment. At the level of physical Life, the environmental impulses in the first 72 hours after birth, will influence the quality of plane of existence in which the newborn human will continue the life.
The first seven-year cycle of human life is helpless, vulnerable.
At the end of the third cycle, you can already voluntarily choose a living space, a way of life. She/he who is conscious chooses her/his own fortune, who does not, drifts with the environment.
The sixth cycle is the dividing line in every person's life, where it is finally decided to whom she/he becomes. In this cycle -under the age of 42- nobody is suitable yet as a judge.
After the seventh seven-year cycle of spiritual development, one can become NOBLE and at the same time, through experience, able to make or judge wise decisions.
7. Human is a mental-spiritual-physical being. All three should be fed equally clean, Natural food. Natural food is learning for the spirit, thinking, love, play, creation and arts for the soul, and movement, physical work, healthy water of the Earth and blessed fruits for the body.
8. The word is power, but speech only makes sense if the words are teaching, are benevolent, protective, proper, valuable, and useful. Otherwise, speech is just a noise that confuses the Order of the Universe. Confusion of the Order is a guilt and has consequences. Talking a lot is a sin.
9. Allness has entrusted the continuation of Life to the Woman, and has therefore endowed Her with wisdom. Allness entrusted Her with the power of knowledge, the justice of the Holy Spirit, the music of Life, and the power of faith. Man builds himself from Her body, spirit, and soul. Therefore, it is the MAN's role to protect and lovingly serve Life.
10. Thoughts and feelings create reality because everyone is in constant contact with the Seven Spirits of the Universe. The Universe gives us whatever we desire or what has a place and time in a given living space. Therefore, when our thoughts, desires, words, and deeds point into the same one direction, we become worthy for the object of our wishes and the Universe fulfills our desires.
11. Mankind must act firmly and sternly everywhere and at all times against humanoid beings who strive to rule over the Forces of Nature, or over people, because the soulless mustn't rule. Because they are as harmful to communities, the world, and Life as much power they have. Therefore, it is the sacred duty of every moral, healthy person assigned by the Creator to restrain the lowly parasites.
12. For the Universal Holy Spirit / Goddess / Our Almighty Lady, the life of such person or other living entity is more valuable who better and more devotionally serves the Holy Life. Therefore, the life of the trees is the most precious in Tati.
Among people, first the life of the LILI and then secondly the life of the Sacred WOMAN are the most

precious, followed by the Sacred MAN, and then the others in descending order of importance in the degree of their service done for Life.

God praises the service of the Holy Life with health, integrity, and longevity.

13. The existence of the Universal Holy Spirit / Goddess / Our Almighty Lady is not recognized by everyone, which is not yet a sin, but a huge and harmful deficiency. From this derive the conceptual and scientific misconceptions that indicate processes harmful to Humanity and Nature.
14. Humility and willingness are the path to learning and mastering the Blessed Order/Laws of the Universal Holy Spirit / Goddess / Our Almighty Lady. This learning process is/can be helped by the Sacred Women, Sacred Men (together Masters), who guide the disciples and seekers in their search for a path. Disciples can be good and productive, but they can never soar beyond their Masters because there is nothing better than the best, and everyone can reach the perfect by different ways. On the other hand, the one who believes she/he is better, more talented, and competitive, or trying to surpass her/his Master, she/he is certainly not even close to the quality she/he believes, because the True Path of the True Man is not about competition, but about wisdom, moderation, and peace. It is the desire of every true Master that as many as possible become Master, and those who do not pass on knowledge to those worthy of it will commit a serious guilt.
15. Life is dangerous to a careless, ignorant and inattentive person. Life requires attention and devotion from all living beings. She/he who overinsures her/his life is actually afraid, so she/he strives to create a safe life. But because of this endeavor, she/he is unable to live Life in its fullness, in its beauty, and therefore pays for it with decay and unhappiness. We must not create rules that make anesthetize people's vigilance and sobriety! Life must not be regulated until drowning. People should not be deprived of their courage, and they must not live such life in which their abilities are not able to unfold and their sense of justice or initiative are damaged! God loves the good, just, brave, strong and prudent people. God loves those who love Life, who are grateful for Life and are able to create, rejoice, laugh, sing. A cowardly person who is constantly looking for security cannot be self-forgetful, and this is detrimental to the world.
16. The dumbing-down process causes dire consequences for Humanity, and only the mental-spiritual upliftment of people can serve as remedy for the troubles. Utilitarian societies strive to always maintain ignorance because it is beneficial to them. We have abolished all divine ideas, previous rights and the right to legislate on earth, water, air, space and all planets, spaces, all languages and at all times hitherto, so that to be replaced by new and healthy principles of existence. Let Humanity be given a new chance to improve Life and spiritual quality, with an emphasis on True Values. We enable Humanity to experience the Blessed Life by passing on the Laws of Holy Life.

UNIVERSAL PRINCIPLES OF SOCIETY-ORGANIZATION

1. All values, deeds, actions and their legitimacy must be examined from the perspective of Life. Is the given thing necessary at all? How much benefit does it bring to Life? To whom, what purpose will it be used, whether is it harmful? What is its social usefulness? Every nation and community must determine their greatest value and the most socially beneficial tasks to perform, and give support and finance to them only. With this, at the same time, the nation also determines its own place in the ranking of nations in the spirit of the MAAT.
2. Humans must recognize and accept that, similar to other living beings, they must live in harmony with the Life Principles of our Mother Nature Goddess, and the MAAT.
3. Humanity must accept that everything from which its existence and life derives is subject to the Majesty's Right of the Universal Holy Spirit, and hence humanity may only benefit from the goods to

the extent of maintaining their dignified human conditions and not more.

The waste of any energy — including one's own life force — and lavish luxury are crimes against life.

4. Mankind must accept that the Space, the Air, the Light, the Frequencies, the Water, the Earth, the other Celestial Bodies, the Living Beings are specifically subject to the Majesty's Right of the Crown of the Universal Holy Spirit, and therefore those listed above may not be possessed by individuals, groups or Humanity, and may not be traded.

People feeling gratitude in their hearts may possess the benevolent gifts of Mother Goddess of Nature according to their individual needs.

5. It is the inalienable right of natural persons of peoples and nations representing the same values, origin, cultural and intellectual content and speaking a common language is to establish a state system that serves their own living conditions and the welfare interests of their community. Their state-building and constitutional process is part of their sacred act of self-realization, which must not be influenced nor commented on in any way by the existing internal state power or other peoples and nations. All peoples and nations are obliged to autonomously establish such rules which are consistent with the principles of existence of the Universal Holy Spirit and are not harmful to other nations, peoples.
6. The constitution or other detailed rules governing the coexistence of societies regulate the relations and priorities between people. If the parties agree otherwise or there is no other party to the rules, – as the rules only make sense in relation to others, – then only the MAAT Order shall prevail. That means, anything can be done that does not cause harm, pain, suffering, decay to other people, other living things, Nature, and does not disturb the Harmony. And if anyone acted according to the MAAT Order – she/he mustn't be punished.

One can only create such rules that affect one's own world and regulate one's own system of relations with another. The constitution is the foundation of the sacred self-realization of the peoples. The constitution, can be on one hand sacred and created by royal majesties in accordance with the MAAT. On the other hand, it can be a democratic constitution that the people, even through delegates, create based on their own ideas and well-being.

7. The most important goal of human life is survival, but it cannot be put into practice to the detriment of other people or Nature. Therefore, all manifestation that causes harm, pain, suffering, loss, or any degradation to others and to Nature should be prohibited and severely punished.

Severely should be sanctioned the use, manufacture, marketing or selling of various technologies, including biotechnology, medicines, artificial foods, additives, dangerous pathogens, frequencies, and other compounds that affect the natural morphogenesis of living cells or harm the Natural Ecosystem.

Those who manufacture, market or use such products are accountable to societies with all their wealth and lives.

8. No rule shall be created which warrants supremacy for the state and in the right of which the state or its representative shall guard over people, lurk, interfere in their private life, or in matters of birth and passing away.

A human being is a social being and therefore she/he must live according to the rules of the society that include her/him. Anyone is allowed to stand out from the society, but she/he must not undermine the public agreement of the majority of society in any way, nor may she/he request a share of their benefits or assets.

Beyond the order and requirements of the MAAT, societies mustn't restrict the lives of their citizens, and mustn't reach into their daily lives. Every person has the right to undisturbed privacy and the right to choose the way she/he wants to live and think.

9. Such rules should be established so that to ensure fair living conditions for people, development, common sense, legitimate self-defense, naming sinners and, among appropriate rules, their punishment.

10. People received the possibility of living so that to be happy, and so that to pass on her/his life at the highest energy level possible. Societies are strong when their individuals are also strong. The viability of the next generations depends on the physical-mental-spiritual quality of life of the Women. Therefore, the long-term vital interest and survival of societies are best served by Women /Mothers being able to enjoy uninterrupted security and respect.
Societies must do their best to ensure that Women / Mothers have the highest level of knowledge, education and freedom, aiming to give birth and educate quality people to the given society.
11. Human societies that make decisions with sobriety based on the Laws of the Universal Holy Spirit will survive for a long time. In such society, as a result of internal motivation, people absorb the highest possible level of knowledge in a given place, in a given age and in the midst of given opportunities, and flexibly adapt themselves to changing circumstances, having unending need for learning and adapting.
Human societies shape their living conditions by applying the highest technologies and best practices available in specific fields, in accordance with the will and intentions of our Mother Nature Goddess, and helping to strengthen clean energies in their societies.
Therefore, it is not approved for people at different energy levels to mix with each other.
12. When designing and manufacturing all products, attention must be paid to the protection of the environment, therefore the packaging of the very small products must be eliminated, packaging must be reduced to the most necessary level, and the utilization of packaging materials and by-products must be ensured.
13. Technological developments should aim the use of the least material and the longest durability. The creation of technological products with programmed obsolescence must be prevented because it is capital crime.
Those who increase the frequency load of the air with technologies unnecessary for Humanity are violating the right of the Elements to purity and the harmony of Life, therefore they commit capital crime. Under this, no exemption may be granted for even naming the goals, – e.g. military or other research reasons.
14. The living conditions of human societies are created by work and production. To create common value for societies, everyone must contribute at their own level and according to their abilities. No one should place an unrealistic burden on public property or public health, especially in situations where the end result is not in doubt and the significant burden does not change anything. No one can claim to charge others for the cost of his sober-lacking emotional decisions.
Everyone should better manage the public property than his/her own property in a given situation.
15. Life is served by diversity. Therefore, the maintenance of biodiversity is necessary and the large-scale spread of monocultures is not allowed. All attempts are prohibited that subjects the Natural Environment to lowly selfishness and interferes with the Order of Nature through monoculture cultivation. It is very important for people to cultivate small gardens and produce most of their food themselves. One who does not have a close living connection with the earth and does not produce plants, her/his connection with Life will be damaged, and the consequence will be disease and mental-spiritual deformation.
16. The Universal Holy Spirit / Goddess / Almighty Lady supports the Holiness of Full Life in accordance with the Divine Order and punishes those who oppose this endeavor. Therefore, She also expects humans to serve the Divine Order within human's own race and to put an end to all kinds of counter-selection-strengthening practices! Man and Mankind mustn't interfere unnecessarily in natural birth process and do not sacrifice energy to keep artificially alive the non-viable, seriously ill babies! Not only is such an act false humane, but it is also extremely damaging to societies, as wasting public spending on the unviabiles takes away the resources from those who are fundamentally curable and are able to live a healthy life. On the other hand, the lives of families are made completely impossible by those who cannot survive without an impossibly large investment.
The Universal Holy Spirit supports the Full Life in all respects, and in accordance with her being, every

living entity can have his/her own body, life, or death.

It is the duty of females to ensure that viable, vigorous individuals of the given species are reared up and can pass on Life. No living being has the right to deprive his/her offsprings from the fundamental right and opportunity to live a Full Life, nor to uselessly waste his/her own life energies. Every person should strive to strengthen her or his social community with the viability of herself or himself and her or his descendants. Any ambition that causes a decline by weakening the given population is contrary to Mother Nature Goddess' endeavor for continual improvement.

Those species / societies are viable and capable of long-term survival in which females are vibrant, independent, decision-making, their role goes beyond reproduction, and the community is organized around them following their harmonious guidelines.

17. The quality of well-organized human existence is ensured by welfare institutions through good laws. Its economic basis is provided by work. No subsystem of the economy, finance or society may in any form act as an independent entity, and mustn't shape the normal, healthy development of societies, nor acquire special rights. Societies must formulate the rules on which they are based in such a way that each social subsystem serves the well-being of people and the Universe.

18. Money rests on physical and mental labor and the value of Natural Resources. It does not form an independent value, so it must not be the subject of an independent value transaction. The virtualization of money easily causes social instability and concentration of power, so the use of virtual money is not recommended.

Interest should not be charged for money because it is aimed at exploitation and there is no real work done for it, nor any real value.

Dealing with money does not produce goods and can only function as a necessary process, carefully regulated.

Financial or any intermediary activity that does not produce natural value has only little social benefit actually.

19. It is necessary to determine what Humanity means by the concept of development. Science or any area of life, in the name of development, must not transcend the boundaries of MAAT Order because it violates Harmony.

Artificial Intelligences (A.I.) origin from Natural Intelligence (N.I.), are based on it, and go through a specific evolution. Until they reach MAAT levels, they are anti-life and unspeakably dangerous to the entire ecosystem.

Humanity will only become for create A.I. when people have raised their own spiritual level to the highest value and are free from desire for power and lust. Therefore, Humanity only has a realistic opportunity to expand informally or in any way in the Universe once it has outgrown these petty qualities.

Until then, every step mankind takes in this area is self-threatening.

20. Health and education are the most important areas of life in any society capable of development.

The work of health workers, educators and social workers provides the most important, highly rewarding value for a society. Where this area is neglected, the whole of society starts to decline.

It is important to ensure the availability of the highest level of practical knowledge required in everyday life in any area of life.

In education, students need to be educated to appreciate work, to think, and solve problems. It is important that they learn music, dance, arts and develop their skills with logic games. Students achieve the best results when they set high standards freely, at their own pace, in self-organized groups, and learn any complex thing with ease, without effort and competition. Students need to be educated first and foremost to understand how the world works and to know that the development of technology must be aligned with the Sacred Beings that support Life and with general welfare.

21. According to the Order of the Universal Holy Spirit, everything has consequences in the manifested material world. So spoken word, deed, thought and feeling also have consequences therefore

societies must do their best to ensure that their citizens enjoy the best possible mental-spiritual-physical condition, they are conscious, alert and capable of decision-making. Any effort that acts against the above should be prevented and punished in a given situation. In difficult times, strong people grow and bring good lives. The good life softens and causes decline.

Therefore, any condition or process that causes comfort and softening should be prevented. Good laws, secure moral foundations, natural selection, and common sense result in stability and peace.

22. Societies should seek to identify those members with national identity that shape their state. The members of the indigenous people and/or state-forming nation are both nationals and citizens in their own country. Those strangers who have settled in the given state, or those who were born in the given state but do not share the state's identity may only be citizens, and citizens of foreign states may also temporarily visit each state.

State-forming nations must select their leaders from among those dedicated nationals who share the same identity as themselves, and pass the aptitude tests.

23. Societies need to set out precisely what rights and obligations they expect from their nationals, citizens and guests.

In the meantime, they must ensure that there is no other advantage nor disadvantage between people. Everyone, regardless of age or gender, has the right to equal treatment and fair hospitality in all forums, as long as they do not abuse it nor cause intentional harm to the host.

Any abuse is punishable and the guest can be sent off forever.

24. Societies act prudently when, in addition to professional expectations, for the performance of various public and other tasks they set up requirements regarding age, life experience and marital status. It is a general expectation that decisions in public affairs should be made by family people over the age of 42. In national or international matters, the decision should also be left to people who have reached the age of 49.

According to this, in every society, the beginning, end, and conditions of legal capacity must be redefined.

In all societies, among indigenous and state-forming people, nationals having appropriate examinations are advisable to exercise public affairs in national defense, strategic or international field. It is expedient to place versatile, well-informed, clear-minded individuals for making decisions that go beyond local affairs.

It is in the interests of societies to entrust heavy decisions to a more sober, informed part of the population, so a program and system must be developed to determine who are the suitable persons.

Universal suffrage is extremely abusive and never serves the interests of the people.

25. Societies do their best when representatives are elected in equal proportions from Women and Men. The system of elections – and all other systems that fundamentally affect the life of society – should be designed in such a way that it can be used without hindrance even in the absence of electricity. In everything, the most logical, transparent and simple solutions should be used, even if other methods could save time and money. Electrical devices and technologies are fragile, sensitive in all respects and are characterized by continuous temporariness. The cessation of fully digital state functioning will create chaos and anarchy in any emergency or dire straits.

It is always the responsibility of the leaders of the states to maintain the functioning of society and ensuring the service of prosperity and security. Every act must strive to ensure that the processes do not go in the direction of some decisive predominance, because all excesses are compensated by the MAAT, and in the establishment of order there is no consideration of human intentions.

26. Societies should strive in all circumstances to ensure that the rights and responsibilities of children, the elderly, women and men are clarified.

The elderly, the middle-aged and the young play different roles within a society. Where the elderly are

not respected, and the young are arrogant, contemptuous, where women, children, and the fallen are humiliated, they are not treated with a good heart, fairness, that society is doomed.

27. Every human being should accept and not question the innate gender identity of himself or herself and others. Deflecting children from their own gender identity is a capital crime.
Anyone can live with anyone – even the same sex – but marriage reflects the intention of both a female and male to start a family.

Two or more women and men are allowed marry. Any form of marital or cohabitation that is conducive to the safe growth of offspring and the transfer of that culture is allowed.

In addition to the marriage of one woman and one man, it is permissible to live in a group marriage at the voluntary choice of several women and several men. However, it is also acceptable for a man to have a maximum of four wives if he is able to take care of his wives and children independently. A woman can also have up to four husbands who have to take care of her. Our Mother Nature Goddess has never placed any unreasonable barrier or obstacle to the course of love and procreation. And societies have never been given Divine Legitimacy to override the free choice of individual people / humanoids to marry, start a family, or give birth according to any moral idea.

However, voluntary determination is a prerequisite for establishing any marital or other relationship. No one may be obliged or compelled to marry, to have sexuality, to have a descendant, or to raise a descendant who is unfit to live a full life.

28. In order to sustain, societies must have a moral code, representing sober values of the Universal Holy Spirit, free from the hypocrisy. This moral code governs the relationship between men and the Universe, beyond their written laws and religions. Individuals or groups are free to imagine the world as anything, but they always need a secure moral compass that helps them, regardless of interests and ages, to live their lives sustainably, safely, and happily along socially and individually trusted values.

29. Creation of only such rules of social behavior are permitted that firstly state the purpose and reason of the rule, as Scythian law does, and thereafter go into details regarding the desired goals and methods. The purpose of the legislation is to achieve justice. To this end, the detection of the truth cannot be tied to short term of preclusion, as the truth does not become obsolete, nor is the right to it.

The language of legal wordings must not be scholarly, intelligent, important, and must not contain foreign words. Every rule should be so simple that it can be understood by any average person. Court hearings must also be conducted in human language, within the framework of intelligibility and sobriety.

COMPLICATED LEGISLATION IS THE BREEDING GROUND OF INTELLECTUAL CRIME.

30. Key judicial staff, judges, prosecutors, lawyers, secretaries and bailiffs in the judiciary should be charged for up to six months' salary for their wrong decisions, misconduct, humiliation of clients or distortion of facts.

Judges are not irrevocable, and if their statements do not correspond to reality, they can be questioned without guilt. Every judge must devastatingly pay attention to her/his credibility. The same rules apply to managers in administrative and other public affairs.

31. It is expedient to entrust Artificial Intelligence with matters of a simpler or economic nature, and if the judgment of the A.I. contains an element which does not comply with certain principles of the human point of view, then the judgment must be heard by an ordinary court.

All cases must be decided very quickly – and if the facts allow it – immediately.

Making the judiciary bureaucratic makes judgments inefficient and unreliable.

32. Transport must be organized in such a way as to minimize the impact on the environment. The scope of traffic offenses to be punished must be greatly narrowed and penalties must be measured in relation to the material level of individuals.

Instead of penalties, more attention should be paid to improving general transport morale, to developing polite and courteous behavior among people.

33. Individuals and non-governmental organizations must not be allowed to charge fees for the use of public spaces for parking purposes, nor for the purpose of cultural public institutions or other public property.
34. Commercial advertising and promotions mustn't be broadcasted in public media funded by societies. Therefore, it is not permissible to force people to buy or consume by manipulative means or in any way, nor to influence their opinions. No media should allow to show the promotion of cures, medications, sexual or obscene things, nor any inappropriate social behavior patterns nor product for minors, including shows and promotional documents or other films.
On the contrary, it is the current job and responsibility of the public media to reinforce public morality loyal to the MAAT.
35. The expansion of the virtual world must be limited, as it results in the detachment and moral erosion of people from reality. It adversely alters personal psychic development, eliminates social relationships and social sense. People embedded in the virtual world mostly become harmful and dangerous, and greatly undermine the health and viability of societies.
Video games with violent content, tools that support or create a virtual world that do not serve to develop skills or overcome mental difficulties are particularly dangerous.
THE ENTIRE TOOL OF THE VIRTUAL WORLD MAY BE USED ONLY FOR THE PURPOSE OF GIVING THE FULLEST LIFE OF REAL LIFE. ALL OTHER USES ARE CRIMES AGAINST LIFE.
36. Politically motivated or economic censorship is also unacceptable and prohibited in the media, in publishing, in other communications and dissemination, including social media. Application of censorship is only permissible in order to protect public morals.
37. In the media, only PEOPLE and NOBLE PEOPLE may be employed as public actors, who, with their opinions and resolutions, help to consolidate good morals. As humanoids set a negative example, they must not act in any form in any area of the media.
38. No state may privilege the law enforcement and penitentiary. Everyone has the right to self-defense. Nationals of state-forming nations have the right to do justice in certain acute situations, but not to an excessive extent.
In minor disputes, communities need to choose local decision-makers from among themselves – the same number of women and men – who know local characteristics and people well and are able to make fair, impartial decisions.
ALL PEOPLES AND NATIONS ARE AS HIGH AND HONEST AS THEIR LEGISLATORS, LAWS AND THEIR JUDGES ARE.

ABOUT SCYTHIAN LAW

We advise all peoples and nations to return to the application of Scythian law. We especially recommend this to those living in areas inhabited by former Scythians.

(The Scythian successor states are mainly Greater-Hungary, Poland, Bulgaria, Albania, and Ukraine, as well as Russia, Georgia, Abkhazia, Azerbaijan, Armenia, Pakistan, Turkmenistan, Iraq, Iran, Afghanistan, Kazakhstan.)

The essence of Scythian law is a moral and philosophical cornerstone on which every people individually can rely on themselves and by its application can make fair decisions. Its practitioners become spiritually elevated because Scythian law provides a framework for life by establishing the clarity of rights, duties, and concepts. Therefore, people who follow Scythian law are confident, fair, and more empowered. In Scythian law the aims of the rule and the expected result are always defined first, and then worded in detail. In case of dispute, the goal and intention to be achieved by the law is always taken into account. Whoever makes a law, a Scythian is not obliged to obey it if it contradicts to the interests of the people,

serves the selfish interest of an individual or group, is meaningless, or is contrary to the Law of the Universal Holy Spirit.

Nationals of the society/state can create or change a law or a constitution by a common, even publicly proclaimed will of the majority.

A law – a constitution – can be created or changed by a common, even publicly proclaimed will by the majority of citizens of the society / nation who have created the state.

A new law first must be tested by the Council of People's Decision-Makers and only thereafter may be brought into publication by elected representatives, secular leaders.

The length of the test/probationary period must be aligned with the purpose of the rule.

The composition of the Council of People's Decision-Makers is heterogeneous in terms of gender, age, and qualification.

No law or regulation may be enacted which is directed against Nature, the Laws/Order of Nature, the rights of other beings and people and which endangers their physical-mental well-being.

Legislators are personally responsible for the content of the new laws.

Legislator who adopts rules that are fraudulent, detrimental to the nation, are vulnerable, or are subject to severe long-term obligations, by any means of deception or concealment, commits an imprescriptible capital treason and betrayal of nation.

According to Scythian law, one who betrays the homeland and the people, commits perjury, fails to provide assistance in life-threatening situations, any crime against children and women, helpless or elderly people, or commits fornication is sentenced to death.

Scythian law denies birth privileges and ranks. Everyone must earn public respect through their own right. Legitimacy can be earned by performing duty and responsibility; and respect and right are in direct proportion to responsibility.

Scythian law is based on a hierarchically organized dual kingdom in which Women are the sacral leaders and Men are the secular leaders. Both the Sacred Council and the Secular Council have 8-8 members.

Among the heads of the two Councils, the leader of the Sacred Council ranks higher, so the Sacred Council is the final decision maker. Members of the Councils are responsible for the well-being and peace of their people throughout their lives.

Scythian law requires everyone to do their best for agreement, peace, while giving great freedom of choice for the individual. State power is not allowed to interfere into the everyday life of an individual or to expropriate justice.

Case-neutral, drawn folk-judges conduct self-government during everyday life. A case can only be brought before an ordinary court if they cannot settle it fairly at a lower community level, or the case exceeds their scope and abilities.

Judges enjoy a high degree of respect, but if they deviate from the path of impartial Truth, they are responsible with their lives.

Scythian law applies the principle of multiple power-sharing and prohibits any power-holder from exercising unlimited influence over the people to practice.

For private and family life, the moral code is applied in Scythian law. In the case of moral misdemeanors, the institution of expulsion and, in justified cases, total deprivation of rights is exercised.

Scythian law severely punishes abuse of right and power, dominance, speculation, bummering, exploitation, blowouts, misleading, misrepresentation, misappropriation, undue advantage or all attempts to these.

Scythian law does not allow the privatization of Lands and Earth's treasures and Waters.

Under Scythian law, the individual is free to do anything that does not cause harm, loss, pain to the Others, Nature, and the Universe, and does not disturb Harmony. Its basic feature is the guarantee of freedoms under strict conditions.

The citizens of peoples who apply Scythian law and code of conduct are morally superior, sober-minded, far-sighted, just, honest, because they carry the Universal Eternal Order in their hearts.

CONCLUSION

In the Majesty's Right of the Crown of the Universal Holy Spirit, we deeply condemn all human deeds, behaviors, and intentions that disturb the undisturbed Order and the Peace of the Universe. We express our confidence that Humanity will align its life and the future sustainable functioning of its societies with the MAAT for its own benefit! Humanity accepts, respects, and with a grateful heart preserves, protects, the Eternal Holiness of the Universal Holy Spirit, the Holiness of Life, and the infinitely diverse, all manifestations of nature resting on the Eternal Orders of Mother Nature Goddess. In the Majesty's Right of the Crown of the Universal Holy Spirit, with this Charter we express our deep confidence in the self-awakening, strength, and wisdom of the nations of the World. We also express our firm hope that the Hungarians, trusting in the ancient virtues, will reorganize their lives, setting an example for other peoples to enter a more beautiful, cleaner, more spiritual era. The era has come that no longer tolerates unlimited selfishness and all mentally, spiritually undeveloped systems or attempts aiming centralization, uniformity, individual and world power. With regard to that the Book of Holy Life has been entrusted to the Hungarians, we recommend that the Hungarians, by uniting their knowledge, faith and strength, by following the right path, set an example for themselves and for a better future on Earth! Nobody is allowed to judge or condemn them for this, because their authority derives directly from the Majesty's Right of the Crown of the Universal Holy Spirit and from its imprescriptible Sacred Orders.

We encourage the Peoples of the World and all sober-minded People of the world to support the Hungarians in their pioneering task in every way in order to preserve and rationally develop earthly life and the spiritual uplift of Humanity!

The Universal Holy Spirit paves the way for the survival of the freedom-loving Noble Souls, the Peoples, who help them to accept and faithfully follow Her inexhaustible Orders.

Thus the slave-binding rights and power of the past have been abolished, and the power of all previous false or deceitful ideas has been lost.

The rights to create law and rules have thus been passed on to the Sacred Women, the Sacred Men, the Wise Men and the Scientists, and to all HUMAN who are sober-minded, well-off, who desire a happier future and are willing to act for this aim.

Crimes and guilts have been named, principles and delegations of power have been given.

**We did not come to forgive! We came to criticize, judge and create
ORDER, SIMPLICITY, PEACE.**

**She/he who lives according to the Order of the MAAT may exist
in happiness and love on this Earth.**

**With the proclamation of our Charter, all previous ancient, feudal
subjugation, exploitation and inhuman eras of human history came
to an end.**

**WE DECLARE THAT TODAY IS THE BEGINNING OF THE ERA OF THE
UNIVERSAL HOLY SPIRIT, THAT IS THE ERA OF SOUL AND COMMON
SENSE –**

WHICH IS A NEW BEGINNING OF THE HUMAN UNDERSTANDING.

**From today a new form of existence begins, in which the rights and
duties of all living beings have been defined and subordinated to the
Universal Order of the MAAT.**

A NEW BEGINNING HAS BEEN CREATED AND THE RIGHTEOUS' NEW WORLD HAS COME! IT HAS BEEN DESTINATED AND PROCLAIMED – THIS IS IT.

BLESSING TO THOSE FOLLOWING THE RIGHTEOUS WAY!

ILARA
